- Cost Behaviour:** The manner in which costs change in relation to changes in activity levels.
- Costs:** Costs can be classified as Fixed Costs (costs that remain constant regardless of activity levels), Variable Costs (costs that fluctuate directly with changes in activity levels), or Mixed Costs (costs that contain both fixed and variable components).
- Cost Accumulation:** The process of gathering and recording costs incurred for a specific cost object.
- Cost Allocation:** The process of assigning costs to cost objects based on predetermined criteria.
- Cost Assignment:** The process of assigning costs to specific products, services, or activities based on their actual usage of resources.
