this volume attempts to renew and reinvigorate critical theory by extending its range and its intellectual trajectories through strategies of inclusiveness that respect and build on parallel traditions the authors reinterpret the work of nietzsche wittgenstein and heidegger in relation to central figures kant marcuse foucault and themes of critical theory the critique of modernity theory of the self and the question concerning technology

presenting the foundations of an integrated theory of organizations jensen argues that the cost of transferring information necessitates decentralization of some decision rights in organizations and economies this in turn requires organizations to solve the control problem that results when self interested persons do not behave as perfect agents

a two part study part 1 traces the historical development of accounting principles explains the logic underlying their development and describes the solved and unsolved problems in present accounting practice including inconsistent principles and incompatible treatments part 2 considers the need for a quassi legislative authority in accounting and the role of research in directing the process of change and development in accounting principles it discusses how the purveyors and users of accounting information can participate in the process and concludes with some personal views on changes that should be made in accounting principles that are generally accepted today
