unknown to the discipline half a century ago indeed most criminologists would have once stoutly denied that they had anything to do with it likewise some central topics of past criminological attention like probation have largely receded from academic attention and some central criminal justice institutions like borstal and corporal punishment have at least in europe been abolished although the rapidity and radical nature of this change make it quite impossible to predict what criminal justice will look like in fifty years time reflection on such developments may assist in understanding how it arrived at its current form and hint at what the future holds the contributors to this volume have been invited to reflect on the impact oxford criminology has had on the discipline providing a unique and critical discussion about the current state of criminal justice around the world and the origins and future implications of contemporary practice all are leading internationally renowned criminologists whose work has defined and often re defined our understanding of criminal justice policy and literature
