book is an engaging quiz ebook for all and offers something for everyone this book will satisfy the curiosity of most students while also challenging their trivia skills and introducing them to new information use this invaluable book to test your subject matter expertise multiple choice exams are a common assessment method that all prospective candidates must be familiar with in today s academic environment although the majority of students are accustomed to this mcq format many are not well versed in it to achieve success in mcq tests quizzes and trivia challenges one requires test taking techniques and skills in addition to subject knowledge it also provides you with the skills and information you need to achieve a good score in challenging tests or competitive examinations whether you have studied the subject on your own read for pleasure or completed coursework it will assess your knowledge and prepare you for competitive exams quizzes trivia and more

this book provides two thousand multiple choice questions on human anatomy and physiology separated into 40 categories the answer to each question is accompanied by an explanation each category has an introduction to set the scene for the questions to come however not all possible information is provided within these introductions so an anatomy and physiology textbook is an indispensable aid to understanding the answers the questions have been used in examinations for undergraduate introductory courses and as such reflect the focus of these particular courses and are pitched at the level to challenge students that are beginning their training in anatomy and physiology the questions and answer combinations are to be used both by teachers to select questions for their next examinations and by students when studying for an upcoming test students enrolled in the courses for which these questions were written include nursing midwifery paramedic physiotherapy occupational therapy nutrition dietetics health sciences and students taking an anatomy and physiology course as an elective

about 550 registrants from 51 different countries attended the seventh ottawa conference on medical education and assessment in maastricht we received

525 abstracts for the conference divided in thematic poster sessions and platform presentations organising the conference was an honour and we tried to meet the high standards of a friendly and relaxed atmosphere which has characterized previous ottawa conferences during and after the conference about 250 papers were submitted for publication in the conference proceedings leaving us little time for a post conference depression despite the large number of papers the editors have attempted to review and edit the papers as care fully as possible occasionally however correspondence exceeded reasonable deadlines preventing careful editing of a small number of the papers although we felt that our editorial task was not quite finished we nevertheless decided to include these papers we thank the many authors for their enthusiastic and prompt response to occasionally tedious editorial suggestions and requests we are sure that this collective effort has resulted in a book that will make an important contribution to the field of medical education the editors want to thank jocelyn flippo berger whose expertise with desk top publishing and perseverance was a great help

the trusted favorite for usmle step 1 review lange q a usmle step 1 is a comprehensive q a review of all the topics medical students can expect on the usmle step 1 chapters contain specific topics so you can reinforce one topic at a time and concentrate on you weak areas the final seven chapters consist of practice tests in blocks of 50 questions each in the same format you will see on exam day features co authored by residents who recently passed step 1 board format practice exams enhance test preparation most frequently tested subjects are emphasized organized by subject to help you focus on problem areas fully comprehensive and up to date the most popular review guide for usmle step 1 more than 1 100 q as plus detailed explanations for each one complete 350 question practice test for self evaluation special focuses on physiology pathology and pharmacology the latest info on microbiology and behavioral science
