now in a fully updated third edition the early childhood curriculum demonstrates how to confidently teach using inquiry based methods that address the whole child while also meeting and exceeding academic standards based on current research showing the powerful advantages of integrating the curriculum while providing inquiry opportunities this text explores how to make such an approach work for all children preschool through the primary grades since each curricular subject has its own integrity there is a chapter for each discipline grounding the reader in the essentials of the subject in order to foster knowledgeable and effective integration filled with real life vignettes and activities this third edition provides comprehensive information on the most recent trends in national curriculum standards and classroom technology alongside a new section exploring the outdoors as a welcome learning environment offering a foundation in early childhood theory philosophy research and development this unique textbook helps future teachers as well as current educators understand the why of curriculum in early childhood and invests them with the skills they need to move from simply following a script to knowledgeably creating curricula on their own

education according to John Dewey should be viewed as dynamic and ongoing with direct teaching of integrated content knowledge. This volume offers readers an examination of the content areas in early childhood curriculum that honor Dewey's belief in active integrated learning.

educational resource for teachers, parents, and kids.

Previously cataloged under Dodge, Diane Trister.

Especially designed to meet the needs of preschool teachers and caregivers, a complete, well-balanced, class-tested curriculum emphasizing the learning process.

Key benefit: This book takes an integrated, theme-based approach to curriculum rather than focusing on specific subject matters or activity areas. Presents six umbrella themes familiar to us in our world: the physical world, the animal world, the plant world, the world of communication, and the world of vehicles and transportation. The curriculum guide section is organized into six themes and accompanied by appropriate activities. Preservice and inservice early childhood educators.

This text is appropriate for early childhood curriculum courses in early childhood departments, elementary education departments, and departments of child and family studies. Using a thematic, integrated approach, this book addresses the need for present and future teachers to understand the benefits of developmentally appropriate curriculums and the role of the child's development in the curriculum. This practical text combines theory with practice by providing concrete examples of how to plan meaningful activity for children from infancy through age eight in child care, pre-school, and primary school settings. Current trends and issues are discussed throughout the text to keep students abreast of the latest thinking in early childhood curriculum development.

This comprehensive guide provides information on planning programs with a play-based, developmental curriculum for children from birth to five years of age and covers basic principles and current research in early childhood curricula. The text is unique in that it discusses the creative play model for use with children from infancy through preschool by presenting an integrated, individualized curricular approach that helps teachers to be sensitive to and to plan for young children with a variety of developmental and cultural backgrounds.

For curriculum in early childhood courses with its coverage organized around eleven areas of experience that are critical to a child's development, this practical text shows prospective teachers of children ages 2 to 5 how the basic characteristics of young children should influence instructional planning. Curriculum and expectations coverage incorporates the best of traditional methods and the brightest ideas of today's cutting-edge thinkers into a cohesive presentation that emphasizes the individuality of each child and the idea that a relaxed, unstructured yet carefully planned atmosphere is most conducive to effective teaching. The result is a volume of solid practical advice and encouragement for students who love children and want to help them go forth successfully.

Former president of NAEYC and co-author of *The Young Child as Scientist*, Christine Chaille brings a

reggio emilia inspired fresh friendly and innovative introduction to constructivist curriculum for educators in preschool to primary classrooms designed to be a readable and user friendly source for teachers who are looking for guidance and inspiration when incorporating constructivism and reggio emilia ideas into their classroom the chapters in this book are organized into two categories introductory chapters and big idea chapters introductory chapters provide the broad theoretical framework and an overview of constructivist practice and reggio emilia ideas the big idea chapters present one of the seven big ideas light balance cause and effect transformation sound zooming in and out and upside down as springboards to help teachers build an interdisciplinary child centered curriculum big idea chapters also bring theory into practice by incorporating scenarios of real teachers implementing the projects discussed in their classrooms by balancing theory and the realities of the classroom this book helps teachers challenge themselves and their students with strategies for infusing new curriculum approaches in their classrooms without sacrificing what they need to accomplish in the process

this thoroughly up to date and completely accessible book uses a socio historical perspective to examine the major curriculum models of early childhood education it examines the approaches of montessori developmental interaction direct instruction kamii devries high scope and reggio emilia curriculum comprehensive coverage looks at each model in terms of purpose and function impact on early childhood education theoretical underpinnings and current evaluations for parents and teachers interested in early childhood education and curriculum
