act of disobedience and resistance which set new human stories in motion and gave narrative shape to existence nineteenth century writers were so steeped in christian traditions that the fall remained an ineluctable structure of thought and even those who resisted or tried to secularise its doctrinal orthodoxies tended to affirm its logic it was a political social and cultural force as well as an aesthetic preoccupation a way of reflecting on the limitations and possibilities of art and literature driving innovations in prose poetry and the novel rethinking narratives of american exceptionalism with transatlantic and anti racist writings freedman captures some of the most theologically imaginative and aesthetically and politically interesting textures of the fall in nineteenth century literature the myth of the fall survives as much more than a judgmental and repressive social mechanism and mattered to people living vastly different lives this is partly due to the adaptability and force of its narrative logic and partly because it gives narrative time the feel of a quest an infinite search for meaning the fall holds onto the otherworldly and the unworldly it serves as a formal metalanguage a residually and sometimes explicitly religious aesthetic an origin myth of modernity a source for being in time

the prominent civilized nations such as the babylonians egyptians hebrews and hindoos the inhabitants of iran and of persia the greeks and the romans as well as the teutons and others all began at an early stage to glorify their heroes mythical princes and kings founders of religions dynasties empires or cities in brief their national heroes in a number of poetic tales and legends the history of the birth and of the early life of these personalities came to be especially invested with fantastic features which in different nations even though widely separated by space and entirely independent of each other present a baffling similarity or in part a literal correspondence many investigators have

long been impressed with this fact and one of the chief problems of mythical research still consists in the elucidation of the reason for the extensive analogies in the fundamental outlines of mythical tales which are rendered still more enigmatical by the unanimity in certain details and their reappearance in most of the mythical groupings
