indonesia s criminal law system is dysfunctional despite the country s transition to democracy both the criminal code and the criminal procedure code are badly out of date the former only superficially changed since colonial times and the latter remaining as it was under soeharto s authoritarian new order regime law enforcement officers and judges are widely seen as corrupt or incompetent and new laws including new islamic laws passed at the regional level often contradict the

criminal code and national statutes including human rights laws this book based on extensive original research by leading scholars in the field provides an overall assessment of the state of criminal law law enforcement and penal policy in indonesia considers in depth a wide range of specific areas of criminal law and discusses recent efforts at reform and their prospects for success

considering both abstract arguments and factual evidence about the effects of punishing offenders ten links the moral justification of punishment by the state to more general issues about the nature of moral disagreements and our obligations to obey the law

in the years between 1750 and 1868 english criminal justice underwent significant changes the two most crucial developments were the gradual establishment of an organised regular police and the emergence of new secondary punishments following the restriction in the scope of the death penalty in place of an ill paid parish constabulary functioning largely through a system of rewards and common informers professional police institutions were given the task of executing a speedy and systematic enforcement of the criminal law in lieu of the severe and capriciously administered capital laws a penalty structure based on a proportionality between the gravity of crimes and the severity of punishments was erected as arguably a more effective deterrent of crime this book first published in 1981 examines the impact of these two important developments and casts new light on the way in which law enforcement evolved during the nineteenth century this title will be of interest to students of history and criminology
