in dostoevsky as suicidologist amy d ronner illustrates how self homicide in fyodor  
dostoevsky s fiction prefigures emile durkheim s etiology in suicide as well as theories of  
other prominent suicidologists this book not only fills a lacuna in dostoevsky scholarship but  
provides fresh readings of dostoevsky s major works including notes from the house of the  
dead crime and punishment the idiot demons and the brothers karamazov ronner provides  
an exegesis of how dostoevsky s implicit awareness of fatalistic altruistic egoistic and  
anomic modes of self destruction helped shape not only his philosophy but also his craft as  
a writer in this study ronner contributes to the field of suicidology by anatomizing both self  
destructive behavior and suicidal ideation while offering ways to think about prevention but  
most expansively ronner tackles the formidable task of forging a ligature between artistic  
creation and the pluripresent social fact of self annihilation

there are many reasons to despair over the state of the world today climate change war  
terrorism social injustice and an utter failure by our political systems to fix them yet there will  
always be those frustrating optimists who counter such an outlook by citing developments  
such as modern medicine democracy and the global internet as signs that things are and  
always have been on the up and up this book locks those people in a separate room  
shattering their rose colored glasses to show the tremendous value in keeping the dark side  
of human affairs at the forefront of our consciousness stuart sim starts with the proposition  
that pessimists simply have a more realistic world view tracing how pessimism has  
developed over time and exploring its multifaceted nature he shows that many thinkers

throughout history including philosophers theologians authors artists and even scientists have been pessimists at heart challenging us to face up to the desperations that define human existence spanning cultures and moving across eras he assembles a grand discourse of pessimism ultimately he offers the provocative argument that pessimism should be cultivated and vigorously defended as one of our most useful and ever relevant dispositions
