when crimes against humanity was first published in 1999 it made a riveting case for holding political and military leaders accountable in international courts for genocide torture and mass murder in vivid prose leading human rights lawyer geoffrey robertson called for a radical shift from diplomacy to justice in international affairs transforming the way we understand human rights since then fearsome figures such as charles taylor laurent gbagbo and ratko mladić have all been tried in international court and a global movement has rallied around the human rights framework of justice in this newly revised and updated edition robertson expands his groundbreaking work to address the unique challenges we are still grappling with more than a decade later in substantive new chapters he covers the protection of war correspondents the problem of piracy crimes against humanity in syria and nuclear armament in iran along with a criticism of the obama administration s policies around targeted killing and high value detainees robertson presents these complex issues in clear accessible language weaving together disparate strands of history philosophy international law and politics crimes against humanity remains the essential guide for anyone interested in taking stock of the progress we ve made to date and understanding how we can forge a more complete blueprint for justice going forward unedited summary from book cover

geoffrey robertson s crimes against humanity is a superb and highly influential account of the history of the human rights movement up to the present day from the french revolution and the nuremberg trials to 9 11 and the invasion of iraq robertson traces the developing concept of human rights and shows how far we still have to go his inspiring narrative is both a masterly history and a clarion call to the global justice movement

an examination of how the concept of humanity is mobilized to make legal arguments in different areas of law

pursuing justice fourth edition examines the issue of justice by considering the origins of the idea formal systems of justice current global issues of justice and ways in which justice might be achieved by individuals organizations and the global community part i demonstrates how the idea of justice has emerged over time starting with religion and philosophy and then to the concept of social justice part ii outlines the very different mechanisms used by various nations for achieving state justice including systems based on common law civil law and islamic law with a separate discussion of the u s justice system part iii focuses on six contemporary issues of justice war immigration domestic terrorism genocide slavery and the environment finally part iv shows how individuals and organizations can go about pursuing justice and describes the rise of global justice this updated book uses current events and debates to help students understand the complexities and nuances of a society s pursuit of justice it provides students with the foundations of global justice systems integrating greek philosophies and major religious perspectives into a justice perspective and contributes to undergraduate understanding of international justice bodies ngos and

institutions

philosophical foundations of criminal law gathers leading theorists to present original work on a range of foundational questions in criminal law theory the volume provides an overview of current philosophical work on the criminal law setting an agenda for further research and debate

freedom the berber symbol adorns a monument outside the museum of slavery in the gambia it s also an emblem of hope that never again will such wrongheaded political mindsets cloud our judgment about rights and freedoms now enshrined in human rights charters yet those fervent words never again as author donald l lang points out are also the title and rallying cry of a recent book on the aftermath of yet another mass high school shooting where rights and freedoms are concerned do politics trump all never again why human rights charters fail to fulfill their mandates explores the ongoing failures in the efficacy of human rights charters in fulfilling their mandates at the outset he plunges the reader into a deep well of analysis starting with the first flaw in these charters the human mind at the book s core is the wisdom and guidance of roger bacon concerning the pursuit of truth the book grapples with monumental questions such as what makes a being a human being and not something else harking back to the philosophies of marcus aurelius and immanuel kant complemented by modern thinkers such as yuval noah harari and robert b reich the author teases out the true meaning of the word good lang questions the authenticity in which political leaders philosophers spiritual guides big thinkers business leaders scientists and the book s primary audience educators meaningfully

deal with humanity's most fundamental issues he posits the reality that what we as humans value lies on a continuum between authentic good and inauthentic good or evil. Lang's solution includes proposing rational based humanism a new philosophy of education to rethink materialistic measures of success with the aim of equality of life for all.
