process and experience in the language classroom argues the case for communicative language teaching as an experiential and task driven learning process the authors raise important questions regarding the theoretical discussion of communicative competence and current classroom practice they propose ways in which communicative language teaching should develop within an educational model of theory and practice incorporating traditions of experimental and practical learning and illustrated from a wide range of international sources building on a critical review of recent language teaching principles and practice they provide selection criteria for classroom activities based on a typology of communicative tasks drawn from classroom experience the authors also discuss practical attempts to utilise project tasks both as a means of realising task based language learning and of redefining the roles of teacher and learner within a jointly constructed curriculum

the authors set out to define the aims principles and objectives of recent research into what exactly happens in the language classroom to describe the findings of this work and to relate these to teaching practice

this volume is a collection of nineteen original papers written by teachers and researchers about what actually happens in language classrooms both those in which language is the topic of instruction and those where it functions primarily as the medium of instruction the authors utilize a variety of research methods with an emphasis on the collection and analysis of qualitative data chapters investigate such issues as language related anxiety curriculum renewal classroom interaction teachers on line decision making and sociopolitical concerns which affect life in schools among the countries represented in the research are australia hong kong hungary japan mexico pakistan peru singapore south africa spain the sultanate of oman and the united states from publisher s description

arguably the whole point of education is to effect change in what people know and are able to do globalization has contributed to a common perception worldwide of the need to introduce changes to the teaching and learning of languages the success of many attempts to do so has been limited by insufficient consideration of implementation contexts understanding language classroom contexts explores and illustrates how what happens in any language classroom is influenced by and can be an influence on the contexts in which it is situated a clear understanding of these influences is thus the starting point for planning effective change the book considers many visible and invisible features of the multiple layers of any context and provides a framework for understanding the types of factors that may influence whether changes planned by a teacher or externally initiated are likely to be successful the book will help teachers and educational managers or change planners outside the classroom to understand why their classrooms are as they are and so to make informed decisions about what can or cannot or not easily be changed and suggests how any changes might be appropriately managed

the starting point for this collection is a chapter by dick allwright on the language learning and teaching classroom experience entitled six promising directions in applied linguistics the other distinguished contributors respond to this discussion with their own interpretations and from their own experience the collection problematizes prescription efficiency and technical solutions as orientations to classroom language learning complexity and idiosyncrasy on the other hand are recognized as central concepts in a move towards centralizing teachers and learners own understanding of classroom life in the contexts of language learning adult literacy education and language teacher education

through a mix of conceptual and empirical chapters this book defines engagement for the field of language learning it serves as an authoritative guide for anyone wishing to understand the unique insights engagement can give into language learning and teaching or anyone conducting their own research on engagement within and beyond the classroom

intended for teachers this text provides a survey of how research can be utilized and how classroom practices can be examined topics covered include the roles of systematic and unsystematic observation research into learner and teacher behaviour teaching theory and writing up research

this volume presents case studies of language learning beyond the classroom the studies draw on a wide range of contexts from north and south america to europe and the asia pacific region each provides principled links between theory research and practice while out of class learning will not replace the classroom ultimately all successful learners take control of their own learning

this book shows how teachers can help learners bridge the gap between formal instruction and autonomous language learning although english is the primary focus of most chapters there are studies on a range of other languages including spanish and japanese

this book reignites discussion on the importance of collaboration and innovation in language education the pivotal difference highlighted in this volume is the concept of team learning through collaborative relationships such as team teaching it explores ways in which team learning happens in elt environments and what emerges from these explorations is a more robust concept of team learning in language education coupled with this deeper understanding the value of participant research is emphasised by defining the notion of team to include all participants in the educational experience authors in this volume position practice ahead of theory as they struggle to make sense of the complex phenomena of language teaching and learning the focus of this book is on the nexus between elt theory and practice as viewed through the lens of collaboration the volume aims to add to the current knowledge base in order to bridge the theory practice gap regarding collaboration for innovation in language classrooms

this book provides an account of classroom observation in a historical and educational perspective drawing on extracts from classic studies in this field dick allwright reviews the development of research and experiment since the 1970 s the book thus not only provides a background to recent research but also identifies areas for future development stress is laid on the link to be made between practice and research and it is argued that policy making either at classroom or institutional level is heavily dependent on descriptive accounts of classroom reality

this new text is a guide for understanding envisioning and acting on the lessons of english as a lingua franca elf research in english language teaching elt classrooms the volume is the result of the cooperation of an international team that includes members involved in research teacher education and classroom practice this collection bridges theory methodology and real world application of elf research for the first time chapters offer a variety of practical perspectives and support teachers to better prepare their students for the reality of how the english language is used around the world today with close attention to the nuts and bolts of teaching as well as useful features for further investigation discussion and application this book will be a helpful practical resource for current and prospective english language teachers teacher trainers and mentors and curriculum designers
