the new tenth edition of kottak's best selling text for general anthropology continues to offer a holistic introduction to anthropology that approaches the course from a four field perspective and a book that is good for students and professors the new tenth edition is a major revision offering many new and exciting features that build on the strengths of this approach the text has two new themes bringing it all together and understanding ourselves the bringing it all together theme emphasizing anthropology's integrated comparative and four field nature can be found in new bringing it all together essays that show how anthropology's subfields and dimensions combine to interpret and explain a common topic the understanding ourselves theme helping to explain the relevance of facts and theories to students can be found in new understanding ourselves paragraphs that answer the question so what a brand new and unique atlas and visual guide will be shrink wrapped with every copy of the text for free offering students even more visual material on top of an already outstanding visual arts program in the text two new features called interpreting the world and atlas and visual guide questions will tie key content in the atlas and visual guide to the text two new chapters drawn from an original chapter on cultural and archaeology methods now focus on methods and ethics in all four subfields this edition will continue to offer revised and updated popular features of previous editions including chapter opening in the news vignettes many now from 2002 interesting issues boxes beyond the classroom boxes as well as a wealth of learning tools and support

accompanying cd rom contains 25 succinct video clips each corresponding to a chapter in the textbook each clip is accompanied by a text overview and probing questions to exercise the student's critical thinking skills page 4 of cover

the essays collected in *world in motion* all address the same issue the global paradox that modern prosperity has entailed extreme environmental degradation gary m kroll and richard h Robbins present readings covering all principal viewpoints on this matter from the neoliberal belief that environmental and social problems can be fixed through a growing economy to the critics of globalization who equate growth with environmental degradation this book asks an important question can we simply accelerate growth under the assumption that increased prosperity and new technologies will allow us to reverse environmental damage or do we need to transform our modes of living radically to maintain the health of the world around us

khat marijuana peyote are these dangerous drugs or vilified plants with rich cultural and medical values in this book lisa gezon brings the drug debate into the 21st century proposing criteria for evaluating psychotropic substances focusing on khat whose bushy leaves are an increasingly popular stimulant and the target of vehement anti drug campaigns she explores biocultural and socioeconomic contexts on local national and global levels gezon provides a multi disciplinary examination of the plant's direct physical and psychological effects as well as indirect social and structural effects on income and labor productivity identity gendered relationships global drug discourses and food security this sophisticated multileveled analysis cuts through the traditional battle lines of the drug debate and is a model for understanding and evaluating psychotropic substances around the world

mcgraw hill conducted extensive research to gain insight into students study behavior and instructor needs we learned that students want visual appeal and content designed according to the way they learn while instructors need a way to engage their students without compromising on high quality content from this we created the m series a series of magazine style textbooks culture is the latest addition to the series this new magazine style text for the introduction to cultural anthropology course offers solid scholarly content and an engaging design that will captivate your students through memorable eye catching pedagogical features students develop a better understanding of the material and will retain a greater amount of course concepts this book presents cultural anthropology in a way that is both captivating and relevant to today's student at a price that they prefer more current more portable more captivating plus a rigorous and innovative research foundation adds up to more learning when you meet students where they are you can take them where you want them to be

in her new book gezon argues that local events continuously redefine and challenge global processes of land use and land degradation she challenges analytical distinctions between separate local and global spaces rather proposing that the global is one aspect of the local to the extent that people in any given locale must act within the parameters of policies authorities and material conditions that have sources outside of the reach of immediate local networks her ethnographic study of antankarana identifying rice farmers and cattle herders in northern madagascar weaves together an analysis of remotely sensed images of land cover over time with ethnographies of situated negotiations between human actors she focuses in particular on the interplay of political authorities including family based elders a regional indigenous authority and an ngo charged with enforcement of conservation policies in the context of specific contests over resource access gezon takes a micro political approach in evaluating conflicts that result in a change in control over local resources by global or supra national policies capital or personnel her book will be particularly valuable to researchers and students in anthropology geography sociology and environmental studies and those involved in conservation and resource management
