although early zionist thinkers perhaps naively believed that anti jewish persecution would end with sovereignty anti zionism has become one form of the new antisemitism following world war ii because antisemitism has not been effectively addressed anti jewish rhetoric activism and deadly violence have flourished around the world in anti judaism antisemitism and delegitimizing israel editor robert s wistrich and an array of notable academics journalists and political scientists analyze multiple aspects of the current surge in anti jewish and anti israel rhetoric and violence contributors ben cohen r amy elman lesley klaff matthias küntzel nelly las alvin h rosenfeld and efraim sicher among others examine antisemitism from the perspectives of history academia gender identity and religion offering a variety of viewpoints and insights into disturbing trends worldwide the contributors provide a basis for further discussion and increased efforts to counter the increasingly vocal and violent hatred of jews and israel

the denial of the holocaust has no more credibility than the assertion that the earth is flat yet there are those who insist that the death of six million jews in nazi concentration camps is nothing but a hoax perpetrated by a powerful zionist conspiracy sixty years ago such notions were the province of pseudohistorians who argued that hitler never meant to kill the jews and that only a few hundred thousand died in the camps from disease they also argued that the allied bombings of dresden and other cities were worse than any nazi offense and that the germans were the true victims of world war ii for years those who made such claims were dismissed as harmless cranks operating on the lunatic fringe but as time goes on they have begun to gain a hearing in respectable arenas and now in the first full scale history of holocaust denial deborah lipstadt shows how despite tens of thousands of living witnesses and vast amounts of documentary evidence this irrational idea not only has continued to gain adherents but has become an international movement with organized chapters independent research centers and official publications that promote a revisionist view of recent history lipstadt shows how holocaust denial thrives in the current atmosphere of value relativism and argues that this chilling attack on the factual record not only threatens jews but undermines the very tenets of objective scholarship that support our faith in historical knowledge thus the movement has an unsuspected power to dramatically alter the way that truth and meaning are transmitted from one generation to another
