how can we interpret cyberspace what is the place of the embodied human agent in the virtual
world this innovative collection examines the emerging arena of cyberspace and the challenges it
presents for the social and cultural forms of the human body it shows how changing relations

between body and technology offer new arenas for cultural representations at the same time the contributors examine the realities of human embodiment and the limits of virtual worlds topics examined include technological body modifications replacements and prosthetics bodies in cyberspace virtual environments and cyborg culture cultural representations of technological embodiment in visual and literary productions and cyberpunk science fiction as a prefigurative social and cultural theory

this book investigates the realities of human embodiment and the limits of virtual worlds and covers many topics it will be of interest to academics and students in cultural studies popular culture communication sociology of culture and philosophy

the second edition of this book provides a comprehensive overview of the ways in which social theory has attempted to theorize the importance of the media in contemporary society understanding media cultures is now fully revised and takes account of the recent theoretical developments associated with new media and information society as well as the audience and the public sphere

liquid metal brings together seminal essays that have opened up the study of science fiction to serious critical interrogation eight distinct sections cover such topics as the cyborg in science fiction the science fiction city time travel and the primal scene science fiction fandom and the 1950s invasion narratives important writings by susan sontag vivian sobchack steve neale j p telotte peter biskind and constance penley are included

i do not pretend this to be a review in the classic sense of the term rather the following are the many different thoughts inspired by the reading of cyberspace cyberbodies cyberpunk cultures of technological embodiments edited by mike featherstone and roger burrows p 2

this interdisciplinary cultural study of the new technologies discusses cyberspace as it mediates and in turn is mediated by the contexts of globalisation politics medical science and war and the realms of everyday life such as learning identity consumption and leisure it pays attention to

common and visible expressions of technoculture including music videos niche marketing literature and cosmetic surgery in order to highlight its distinguishing features using a range of insights from theorists such as donna haraway stuart hall manuel castells paul virilio and katherine hayles virtual worlds explores the dissemination of cybertechnology into the social and political fields

the television studies reader brings together key writings in the expanding field of television studies providing an overview of the discipline and addressing issues of industry genre audiences production and ownership and representation the reader charts the ways in which television and television studies are being redefined by new and alternative ways of producing broadcasting and watching tv such as cable satellite and digital broadcasting home video internet broadcasting and interactive tv as well as exploring the recent boom in genres such as reality tv and docusoaps it brings together articles from leading international scholars to provide perspectives on television programmes and practices from around the world acknowledging both television s status as a global medium and the many and varied local contexts of its production and reception articles are grouped in seven themed sections each with an introduction by the editors institutions of television spaces of television modes of television making television social representation on television watching television transforming television

this thoroughly revised and updated second edition of the visual culture readerbrings together key writings as well as specially commissioned articles covering a wealth of visual forms including photography painting sculpture fashion advertising television cinema and digital culture the readerfeatures an introductory section tracing the development of visual culture studies in response to globalization and digital culture and articles grouped into thematic sections each prefaced by an introduction by the editor and conclude with suggestions for further reading

brings together new wave essays written from the 1990s onwards together with the several articles written in earlier decades in order to build up a nuanced portrait of modern japanese culture and society this work looks at the macro level of politics and the economy it also

addresses religion and the diversity of contemporary Japanese society

emerges from media and academic debates about the future of societies cultures and identities in light of the recent period of technological change and development considers the continuities and transformations in the structure of knowledge power and subjectivity in contemporary technological culture also looks for measures and targets by which the matrices of domination can be challenged and a course charted for a better future than the current elite have in mind paper edition unseen 29 95 distributed in the us by st martin s press annotation copyrighted by book news inc portland or

digital contagions is the first book to offer a comprehensive and critical analysis of the culture and history of the computer virus phenomenon the book maps the anomalies of network culture from the angles of security concerns the biopolitics of digital systems and the aspirations for artificial life in software the genealogy of network culture is approached from the standpoint of accidents that are endemic to the digital media ecology viruses worms and other software objects are not then seen merely from the perspective of anti virus research or practical security concerns but as cultural and historical expressions that traverse a non linear field from fiction to technical media from net art to politics of software jussi parikka mobilizes an extensive array of source materials and intertwines them with an inventive new materialist cultural analysis digital contagions draws from the cultural theories of gilles deleuze and félix guattari friedrich kittler and paul virilio among others and offers novel insights into historical media analysis

examines the embodied nature of people s experience in and of the modern world this book argues that bodies in nature are subject to novel complex and contradictory opportunities of freedom and escape surveillance and monitoring

throughout history the human figure has been central to art making and three dimensional sculpture has played a particularly dramatic role here tom flynn surveys the human body in western sculpture from prehistory to the present focusing on the ways representation of the

human body has changed in style in meaning and in function 112 illustrations 95 in full color

this text in the expanding area of social theory and space provides an analysis of how space is socially constructed unmade and reconstructed it shows how social theory can be used to make sense of spatial forms and practices and how spatial relations are made durable over space and time

with identity and difference kath woodward outlines the challenge presented by key debates on identity to central questions of gender sexuality embodiment health race and nation

protection of traditional knowledge and resources is of critical concern not only to the groups involved but also to the international trading community for which these resources are of increasing economic importance this work examines the concept of community intellectual property models and additional sources for protection at international law including environmental and human rights frameworks intellectual property law is critiqued as an inadequate framework to address the fundamental object of protection for the communities themselves the management of traditional use as well as the biological and cultural sustainability of this use the work sets out an international framework based on the concept of community resources recognizing the unique claims embodied in traditional knowledge incorporating customary law and facilitating community management of resources international in perspective and scope the book will be a valuable resource for academics and researchers in law international relations and cultural studies

this book explores the relationship of human bodies with natural and cultural environments arguing that these categories are linked and intertwined it argues for an environmentally sustainable and healthy relationship between the body and the earth

revealing male bodies is the first scholarly collection to directly confront male lived experience there has been an explosion of work in men studies masculinity issues and male sexuality in addition to a growing literature exploring female embodiment missing from the current literature however is a sustained analysis of the phenomenology of male gendered bodies revealing

malebodies addresses this omission by examining how male bodies are physically and experientially constituted by the economic theoretical and social practices in which men are immersed. Contributors include Susan Bordo, William Cowling, Terry Goldie, Maurice Hamington, Don Ihde, Greg Johnson, Björn Krondorfer, Alphonso Lingis, Patrick McGann, Paul McIlvenny, Terrance MacMullan, Jim Perkinson, Steven P. Schacht, Richard Schmitt, Nancy Tuana, Craig L. Wilkins, and John Zuern.

Information and communication technologies have completely revolutionised our working practices. Drawing on worldwide case studies, this book explores the transformations and looks to what developments are in store for us in the future.
