a central dilemma for teachers is finding ways to deal with the multiple perspectives and demands of pupils parents school management and external forces the art of teaching explores the tension between teaching and learning that all teachers face presenting a series of insights into the art of teaching from the perspectives of those individuals most closely involved in the schooling process the book explores pupil voice in schools and experiences of teaching and learning from the pupil perspective providing an opportunity for self reflection the book also examines teachers relationships with parents external agencies and their attitudes towards pupils subjects covered include what pupils think of teachers teacher s views of themselves and self reflection school hierarchies and the ethos of inspection using pupil insights to inform learning strategies essential reading for all teachers and students this book offers a unique insight into school relationships and structures giving readers an awareness of what is like to be a teacher professor cedric cullingford s many books include the causes of exclusion taylor and francis and how pupils cope with school cambridge scholar s press

it s time for the educational slugfest to stop traditional and progressive education are both caricatures and bashing cartoon images of each other is unprofitable and unedifying the search for a new model of education one that is genuinely empowering for all young people is serious and necessary some good progress has already been made but teachers and school leaders are being held back by specious beliefs false oppositions and the limited thinking of orthodoxy drawing on recent experience in england north america and australasia but applicable round the world the future of teaching clears away this logjam of bad science and slack thinking and frees up the stream of much needed innovation this timely book aims to banish arguments based on false claims about the brain and poor understanding of cognitive science reclaim the nuanced middle ground of teaching that develops both rigorous knowledge

and character and lay the foundations for a 21st century education worthy of the name

in spite of or perhaps because of the millions of people actively involved in the profession of teaching and the centuries old history of it perhaps no other profession is constantly seeking to be more effective since the end product of teaching are students which represent tomorrow's society the importance of what goes in and what comes out cannot be overemphasized this book presents the fundamentals of teaching and their connection to learning in a clear language the object of the model is the encouragement of active student participation

this book makes a significant contribution to the literature on the scholarship of teaching and learning so it provides both theoretical and practical insights that should be of interest to many so it scholars and practitioners worldwide the theme of teaching and learning and so it as fundamentally communicative acts connects the entire volume and will be picked up by so it scholars elsewhere as a useful and critical frame for future scholarship the cases from south africa and sweden offer new perspectives on teaching learning and so it

in education there is a common belief in the value of being there doing it and seeing for oneself many teachers claim that they have learned most of what they know about teaching from classroom experience in detachment and concern the authors question the overriding value of first hand experience and argue controversially that books and art can give better access to the real world and to the realm of the possible

nurse as educator principles of teaching and learning for nursing practice sixth edition prepares nurse educators clinical nurse specialists and nurse practitioners and students for their ever increasing role in patient teaching health education and health promotion one of the most outstanding and unique features of this text is that it focuses on multiple audiences therefore making it applicable to both undergraduate and graduate nursing courses the sixth edition features coverage of relevant topics in nursing education and health promotion such as health literacy teaching people with disabilities the impact of gender and socioeconomics on learning technology for teaching and learning and the ethical legal and

economic foundations of the educational process

bringing together contributions from internationally known teacher educators this title focuses on enacting educational and pedagogical values in personal practice and developing the interpersonal relationships that are so essential to quality teaching and learning

this book is a must have not only to student teachers and teachers in general but also to teacher trainers and supervisors who are in charge of helping teachers to improve and to refine their teaching skills the energy that this book will instill in any teacher who has a deep passion in discovering the kingdom of teaching and learning is unlimited as the addressed topics would undoubtedly bring the reader closer in understanding extensively the dynamics of teaching and learning besides offering tips and keys to issues about practical teaching and learning the book is embodied with hands on technology tools quite useful in day to day teaching and learning in addition the book sheds light on a variety of teaching and learning techniques and strategies as well as some vague teaching conceptions explained and clarified plainly in fact the majority of the articles suggested within the book are meant to unfold the hidden side of teaching and learning while inculcating novice and experienced teachers with a lot of self confidence to take the universe of teaching in their own hands also the proposed articles are likely to revive and energize teachers to find ways to value what they teach and appreciate learners as well as connect with them at many levels in short the purpose of this thought provocative book is to inspire and activate teachers curiosity to be creative in their teaching 1

this book is about an ecological interpretive image of the basics essays detailing everyday lived events in classroom life are presented to help readers see beneath the surface ordinariness of these events to uncover and examine the underlying complex and contested meanings they contain readers are invited to imagine what would happen to our understanding of teaching and learning if we stepped away from the image of basics as breakdown under which education labors today an image of fragmentation isolation and the consequent dispensing manipulation and control of the smallest simplest most meaningless bits and pieces of the

living inheritances that are entrusted to teachers and learners in schools by involving readers in re thinking the idea of the basics in educational theory and practice this book offers a more generous rigorous difficult and pleasurable image of what this term might mean in the living work of teachers and learners this is a valuable text for practicing teachers and student teachers interested in re imagining what is basic to their work and the work of their students it also provides examples of interpretive inquiry that will be helpful for graduate students and scholars in the areas of curriculum teaching and learning who are interested in pursuing this form of research and writing the second edition is guided by the view that thinking the world together is a form of ecological thinking adds chapters that take up the ecological aspects of this vision the hermeneutic aspects and curricular aspects in the areas of mathematics reading and writing and social studies included also are chapters on child development information and communications technologies and more proposes a version of the basics that asks teachers to be public intellectuals who think about the world who think about the knowledge we have inherited and to which we are offering our students living breathing access

the contributions are authoritative and of high quality this is an important resource the teacher trainer a seminal state of the art critical review of teacher and school development which touches upon and discusses issues at both policy and practice levels
