these substantial volumes present the fullest account yet published of the lexicography of english from its origins in medieval glosses through its rapid development in the eighteenth century to a fully established high tech industry that is as reliant as ever on learning and scholarship the history covers dictionaries of english and its national varieties including american english with numerous references to developments in europe and elsewhere which have influenced the course of english lexicography part one of volume i explores the early development of glosses and bilingual and multilingual dictionaries and examines their influence on lexicographical methods and ideas part two presents a systematic history of monolingual dictionaries of english and includes extensive chapters on johnson webster and his successors in the usa and the oed it also contains descriptions of the development of dictionaries of national and regional varieties and of old and middle english and concludes with an account of the computerization of the oed the specialized dictionaries described in volume ii include dictionaries of science dialects synonyms etymology pronunciation slang and cant quotations phraseology and personal and place names this volume also includes an account of the inception and development of dictionaries developed for particular users especially foreign learners of english the oxford history of english lexicography unites scholarship with readability it provides a unique and accessible reference for scholars and professional lexicographers and offers a series of fascinating encounters with the men and women involved over the centuries in the making of works of profound national and linguistic importance

a sociolinguistic history of british english lexicography traces the evolution of british english dictionaries from their earliest roots to the end of the 20th century by adopting both sociolinguistic and lexicographical perspectives it attempts to break out of the limits of the dictionary ontology paradigm and set british english dictionary making and research against a broader background of socio cultural observations thus relating the development of english lexicography to changes in english accomplishments in english linguistics social and cultural progress and advances in science and technology it unfolds a vivid coherent and complete picture of how english dictionary making develops from its

archetype to the prescriptive the historical the descriptive and finally to the cognitive model how it interrelates to the course of the development of a nation s culture and the historical growth of its lexicographical culture as well as how english lexicography spreads from british english to other major regional varieties through inheritance innovation and self perfection this volume will be of interest to students and academics of english lexicography english linguistics and world english lexicography

this volume presents the first full scale biography of daniel jones a preeminent scholar and leading british phonetician of the early twentieth century and the first linguist to hold a chair at a british university this book richly illustrated with partly unpublished material traces jones s life and career including his contacts with other linguists and with figures outside the linguistic world notably robert bridges and george bernard shaw
