echinoderms are an ancient and diverse group of marine animals with a rich fossil record they occur abundantly in all modern oceans and at all depths where they contribute importantly to patterns in biodiversity and to the structure and functioning of marine systems it is therefore vital to understand how they will respond to a rapidly cha

this completely revised and updated eighth edition serves as the definitive text for courses in which the united nations is either the focus or a

central component built around three critical themes in international relations peace and security human rights and humanitarian affairs and sustainable human development the eighth edition of the united nations and changing world politics guides students through the seven turbulent decades of un politics this new edition is fully revised to incorporate recent developments on the international stage including new peace operations in mali and the central african republic ongoing un efforts to manage the crises in libya syria and iraq the iran nuclear deal and the new sustainable development goals the authors discuss how international law frames the controversies at the un and guides how the un responds to violence and insecurity gross violations of human rights poverty underdevelopment and environmental degradation students of all levels will learn that the un is a complex organization comprised of three interactive entities that cooperate and also compete with each other to define and advance the un's principles and purposes

yet another book on the topic of sustainable forest management can only be justified by new information that is of direct relevance the contents of this volume concentrate on the very latest factors and developments thus hopefully contributing both to the book's attractiveness and to closing gaps in the discipline's database this book is written for researchers in the field of forest management international forestry and climate change related issues legal and policy advisors as well as for managers of private companies who deal with sfm the authors of the various sections are scientists in the field of forestry and other environmental sciences they represent different institutions mainly universities and research agencies in germany but also high level international institutions in development co operation such as the world bank fao and iiasa the scope of the book is to refresh the meanings and perceptions of sfm against the background of the rapid changes in our natural and social environment climate change and the rapid increase of atmospheric co concentration is a global process 2 with negative impacts of different kinds among others on natural ecosystems such as forests a crucial issue therefore is how forest management can contribute to forest conservation in light of changing climatic conditions moreover policy changes such as the introduction of certification schemes and the new emphasis laid on non wood forest products justify the re evaluation of the role of sfm in delivering ecological goods and services from our forests

based learning theory research and practice explores the state of the art in the research and use of technology in education and training from a learning perspective this edited book is divided into three major sections policy practice and implementation issues an overview of policy issues as well as tools and designs to facilitate implementation of based learning theory and research issues a look at theoretical foundations of current and future based learning the section also includes empirical studies of based learning and summary and conclusions highlights key

issues in each chapter and outlines a research and development agenda within this framework the book addresses several important issues including the primacy of learning as a focus for technology the need to integrate technology with high standards and content expectations the paucity of and need to support the development of technology based curriculum and tools the need to integrate assessment in technology and improve assessment through the use of technology and the need for theory driven research and evaluation studies to increase our knowledge and efficacy based learning is designed for professionals and graduate students in the educational technology human performance assessment and evaluation vocational technical and educational psychology communities

this book examines the challenge of accelerating automation and argues that countering and adapting to this challenge requires new methodological philosophical scientific sociological economic ethical and political perspectives that fundamentally rethink the categories of work and education what is required is political will and social vision to respond to the question what is the role of education in a digital age characterized by potential mass technological unemployment today s technologies are beginning to cost more jobs than they create and this trend will continue there have been many proposed solutions to this problem and they invariably involve an educational vision yet in a world that simply doesn t offer enough work for everyone education is clearly not a panacea for technological unemployment this collection presents responses to this question from a wide spectrum of disciplines including but not limited to education studies philosophy history politics sociology psychology and economics

the first wide ranging organic analysis of the sociology of unmarkedness and taken for grantedness this volume investigates the asymmetry between how we attend to the culturally emphasized features of social reality and ignore the culturally unmarked ones concerned with the structures of cultural invisibility unconscious rules of irrelevance automatic frames of meaning and collective attention patterns it brings together scholarship spanning sociology anthropology and social psychology to cover various aspects of humdrum unglamorous nondescript nothing to write at home about social phenomena developing the key assumptions underpinnings and implications of this field of study as comprehensive analysis of unremarked features of our social existence this book will appeal to scholars across the social sciences with interests in social theory and the sociology of everyday life

the present phase of steady upgradation of the relations between the worlds most powerful democracy and the world s largest democracy is qualitatively and quantitatively different from the previous experiences this volume contains papers presented at the second indo us strategic

symposium in washington in 1989 and 1990

this collection of papers represents the outcomes of the international symposium held in delft the netherlands on june 13 15 2007 at the occasion of the 50th anniversary of the unesco ihe institute for water education the papers discuss how to contribute to the sustainability of effective international development and water management with a digest of lessons learned on local knowledge and capacity development authors expose recent research strategies and policy positions water for a changing world starts with an introduction and overview of the water resources and the water supply and sanitation sectors in developing countries and worldwide topics of these reviews are water security environmental integrity the newest earth system science technologies integrated urban water management and the global local nexus of water governance the second part presents positions on catalyzing and disseminating knowledge and capacity development in response to the current challenges and opportunities it consists of a variety of papers on theory and analysis of capacity development methods and case studies and policy positions the authors represent a diverse and representative group of prominent actors practitioners and academics within the water sanitation and development sectors
