this book is a significant and original contribution to the ongoing conversation on modernity it uses the creative and critical works of nigerian playwright and novelist femi euba to demonstrate the place and function of african cultures in modernity and makes the case for the vibrancy of such cultures in the shaping and constitution of the modern world in addition to a critique of euba s fifty year artistic career this book offers an account of euba s formative relationship with the 1986 nobel prize for literature winner wole soyinka during the promising days of the nigerian theatre in the immediate post independence period and the effect of this relationship on euba s artistic choices and reflections euba contributes to our

understanding of africa s negotiation of modernity in significant ways especially in his sensitive reading of esu the yoruba god of fate and chance as an artistic consciousness whose historical and ideological mobility during new world slavery during africa s colonial period and in the manifestations in the black diaspora today emblemizes the process we call modernity by using ritual myth and satire as avenues to the debate on modernity euba lays emphasis on the transformative possibilities at the crossroads of history his works engage the psychological interconnections between old gods and new worlds and the dialogic relationship between tradition and modernity delineating the philosophical and literary debates that reject an easy division between a stereotypically traditional africa and a modern west the author shows how euba s plays and novel engage the entwined and intimate relationships between the modern and the traditional in contemporary africa and thereby she asserts the global resonance of euba s african and specifically yoruba conception of the world by meticulously collecting cataloguing and critiquing euba s works osagie models a new way of practicing african literary studies and invites us to glimpse narrative genius on the continent that she firmly believes african scholars should both promote and celebrate

the authors explore the means by which two early 20th century operas debussy s *pelléas et mélisande* 1902 and bartók s *duke bluebeard s castle* 1911 transformed the harmonic structures of the traditional major minor scale system into a new musical language

the classic conception of human transcendental consciousness assumes its self supporting existential status within the horizon of life world nature and earth yet this assumed absoluteness does not entail the nature of its powers neither their constitutive force this latter call for an existential source reaching beyond the generative life world network transcendental consciousness having lost its absolute status its point of reference it is the role of the logos to lay down the harmonious positioning in the cosmic sphere of the all establishing an original foundation of phenomenology in the primogenital onto poiesis of life

leading scholars of political thought demonstrate how the history of political ideas makes sense of environmental politics and climate change

the soviet massacre of polish prisoners of war at katyn and in other camps in 1940 was one of the most notorious incidents of the second world war the truth about the massacres was long suppressed both by the soviet union and also by the united states and britain who wished to hold together their wartime alliance with the soviet union this informative book examines the details of this often overlooked event shedding light on what took place especially in relation to the massacres at locations other than katyn itself it discusses how the truth about the killings was hidden how it gradually came to light and why the memory of the massacres has long affected polish russian relations
