with an exponential growth in the number of older adults understanding the common disorders of the elderly patient requiring cardiac care is becoming increasingly important incorporating recent advances in the field tresch and aronow's cardiovascular disease in the elderly 6th edition has been completely revised and updated to provide cardiologists primary care physicians geriatricians and other clinicians caring for the elderly a comprehensive and accessible overview of the epidemiology pathophysiology and treatment of cardiovascular disorders in older patients

modern cardiac surgery is based on but does not consist completely of papers submitted at the annual course of cardiac surgery run by the combined institutes and post graduate hospitals involved in cardiac surgery in london 1977 the subjects which have been chosen and included fulfil one of two criteria either they are subjects which were not included in the previous book the current status of cardiac surgery or they cover subjects which needed to be updated because this is a teaching course and not a symposium the emphasis has been on being informative rather than on presenting masses of results the book has been prepared partly from manuscripts submitted by the authors and partly from annotated tapes of the proceedings of the meeting through out the editing and production of this book careful consideration has been given to the requirements of the readership the book is aimed at all students of cardiac surgery and cardiology at all levels and as much information as possible has been packed into it nevertheless the editor wishes to thank the authors for the efforts they have made to be concise and clear in their presentation and for their tremendous co operation in alterations which have been incorporated to make it a more readable treatise this means that this is a book which is of value to nurses interested in cardiology in intensive care to physiotherapists and students wishing to look up particular topics before their final examinations

this text provides a comprehensive state of the art review of this field and will serve as a valuable resource for clinicians surgeons and researchers with an interest in surgical critical care the book reviews up to date data regarding the management of common problems that arise in the surgical intensive care unit the protocols care bundles guidelines and checklists that have been shown to improve process measures and in certain circumstances are discussed in detail the text also discusses several well designed randomized prospective trials conducted recently that have altered the way we care for surgical patients with traumatic brain injury hemorrhagic shock acute respiratory distress syndrome and sepsis this book provides the practicing physician with a clinically oriented practical approach to handle basic and complex issues in the surgical intensive care unit this text will serve as a very useful resource for physicians dealing with critically ill surgical patients it provides a concise yet comprehensive summary of the current status of the field that will help guide patient management and stimulate investigative efforts all chapters are written by experts in their fields and include the most up to date scientific and clinical information this text will become an invaluable resource for all graduating fellows and practicing physicians who are taking the surgical critical care board examinations

host recognition and attachment mechanisms pathogen ingress ion and invasive mechanisms elaboration of pathogenic factors regulation of virulence genes and signal transduction mechanisms against host defenses

the first book to provide general contractors with complete coverage of the pre bid process this practical guide describes all the necessary components involved in the estimating process offers step by step guidelines for preparing an accurate bid without getting bogged down in the details topics include developing the cost sheets for bidding the total projects methods of obtaining and recording subcontractors bids how to negotiate effectively during the bidding period and how to evaluate the bids received includes an appendix with a cost sheet and accompanying takeoff sheets for a typical bid

to sum up the book is well written and is definitely one that was missing from the area of special needs education the possibilities of

technology are changing and the requirements of good practice in responding to a diversity of needs are becoming more demanding than ever in a period of too much theorizing in the area i was overwhelmed by the range of information hints tips and useful advice contained in this book which could be of direct help to those on the front line i would strongly recommend the book to teachers ict coordinators classroom assistants therapists as well as parents british journal of educational psychology if you feel in need of quite a generalized annual as a starting point to cover the use of technology with special needs learners then this book may well be of interest widening participation and lifelong learning mike blamires has edited a useful volume of papers written by colleagues and others engaged in using technology to meet special educational needs overall this book is well aimed at special needs teachers ict coordinators and teachers in mainstream schools and i recommend it computers and education what is enabling technology how can enabling technology become a powerful tool for inclusion what is inclusion anyway these are the questions that this book addresses enabling technology for inclusion is about the leading edge of the best practice it updates the debate on inclusive education placing enabling technology within the context of universal design for learning and innovative thinking about social physical and cognitive inclusion this book describes practice as it is now and what needs to be considered in planning to meet the needs of learners securing access to appropriate it and training those who will be using it its message is that technology can enable people to be included within their communities and educational institutions technology can provide a temporary or permanent support for learners to establish their voice and achieve things that they could not have done otherwise technology can have a powerful role in re shaping the curriculum the contributors have extensive expertise in the use of information communications technology as a tool for inclusion in partnership with people with a large diversity of strengths and learning needs they use this knowledge to enable readers to enhance their own understandings and critical frameworks for the use of these potentially powerful tools for learning and inclusion
