a fateful meeting a year and a half ago i was sitting at a conference listening to ed
 noffsinger speak and suddenly had the most profound aha moment of my professional career here
 was someone presenting a practical and tested solution to some of the most challenging
 problems currently plaguing the us healthcare system problems such as poor access to primary
 and specialty care the uncontrollable and rising costs of healthcare our nation s relatively
 poor quality outcomes and finally the sense of frustration disempowerment loneliness and
 disenfranchisement that patients and their families too often experience dr noffsinger s
 solution seemed deceptively simple shared medical appointments smas that afford the highest
 quality healthcare to be delivered in the highest quality care experience a group setting
 experience collected over a decade and involving more than 100 000 patient visits throughout
 the united states canada and parts of europe has demonstrated that smas when used in primary
 care as well as in the medical and surgical subspecialties lead to increased access to care
 enhanced quality of care and improved patient satisfaction for physicians the efficiency
 gains and team support from their participation in smas translate into much needed relief and
 improved career satisfaction

the us healthcare system faces numerous difficulties uncontrolled increases in costs major access problems doctor shortages closing practices inefficiencies decreasing revenues shrinking bottom lines large numbers of uninsured and underinsured patients and the upcoming increased demands in service posed by the affordable care act as a result many physicians and health care organizations are turning to group visits to address these problems while dr noffsinger's textbook running group visits in your practice is the cornerstone reference on designing implementing and running shared medical appointments smas in one's practice it lacks the simplicity and practicality that clinicians are looking for to start their own sma programs the abcs of group visits is a practical streamlined and step by step guide focused on the implementation aspects of group visits healthcare professionals at every level are looking for alternate ways to deliver high quality care at lower cost and it is clear to many that group visits provide a care delivery model that will address many of today's critical challenges the abcs of group visits quickly provides a solution for your busy practice
