countries have been competing against each other in order to attract financial investment and human capital for decades however emerging economies have a long way to go before they achieve the same levels of competitiveness as a developed economy lack of firm institutions inadequate infrastructure and a lack of trust in the legal system are urgent and unavoidable factors that emerging economies must address the handbook of research on increasing the competitiveness of smes provides innovative insights on integrating adapting and building models and strategies compatible with the development of competitiveness in small and medium enterprises in emerging countries the content within this publication examines quality management organizational leadership and digital security it is designed for policymakers entrepreneurs managers executives business professionals academicians researchers and students

for nearly three centuries leonardo da vinci s work was known primarily through the abridged version of his treatise on painting first published in paris in 1651 and soon translated into all the major european languages here for the first time is a study that examines the historical reception of this vastly influential text this collection charts the varied interpretations of leonardo s ideas in french italian spanish english german dutch flemish greek and polish speaking environments where the trattato was an important resource for the academic instruction of artists one of the key sources drawn upon by art theorists and widely read by a diverse network of artists architects biographers natural philosophers translators astronomers publishers engineers theologians aristocrats lawyers politicians entrepreneurs and collectors the cross cultural approach employed here demonstrates that leonardo s treatise on painting is an ideal case study through which to chart the institutionalization of art in europe and beyond for 400 years the volume includes original essays by scholars studying a wide variety of national and institutional settings the coherence of the volume is established by the shared subject matter and interpretative aim to understand how leonardo s ideas were used with its focus on the active reception of an important text overlooked in studies of the artist s solitary genius the collection takes leonardo studies to a new level of historical inquiry leonardo da vinci s most significant contribution to western art was his interpretation of painting as a science grounded in

geometry and direct observation of nature one of the most important questions to emerge from this study is what enabled the same text to produce so many different styles of painting
