the pentecostal world provides a comprehensive and critical introduction to one of the most vibrant and diverse expressions of contemporary christianity unlike many books on pentecostalism this collection of essays from all continents does not attempt to synthesize and simplify the movement s inherent diversity and fragmented dispersion instead the global flows of pentecostalism are firmly grounded in local histories

and expressions as well as the various modes of their worldwide reproduction the book thus argues for a new understanding of pentecostal and charismatic movements that accounts for the simultaneous processes of pluralization and homogenization in contemporary world christianity written by a distinguished team of international contributors across various disciplines the volume is comprised of six parts with each offering a critical perspective on classical themes in the study of pentecostalism led by a programmatic introduction the thirty six chapters within these parts explore a variety of themes history and historiography conversion spirit beliefs and exorcism prosperity politics gender relations sexual identities racism development migration pilgrimage interreligious relations media ecumenism and academic research the pentecostal world is essential reading for students and researchers in anthropology history political science religious studies sociology and theology the book will also be very useful for those in related fields such as culture studies black studies ethnic studies and gender studies

in middle class pentecostalism in argentina inappropriate spirits jens köhrsen offers an intriguing account of how the middle class relates to latin america s most vibrant religious movement based on pervasive field research this study suggests that pentecostalism stands in tension with the social imaginary of the middle class and is perceived as an inappropriate lower class practice as such middle class pentecostals negotiate the appropriateness of their religious belonging by demonstrating distinctive tastes and styles of pentecostalism abstaining from the expressiveness emotionality and strong spiritual practice that have marked the movement they create a milder and socially more acceptable form of pentecostalism increasingly turning into a middle class movement this style has the potential to embody the future shape of pentecostalism

the explosive growth of pentecostalism has radically transformed latin america s religious landscape within the last half century or so in a region where catholicism reigned hegemonic for centuries the expansion of pentecostalism has now resulted in a situation of religious pluralism and competition bearing much more resemblance to the united states than to the iberian motherlands furthermore the fierce competition from pentecostal churches has inspired significant renewals of latin american catholicism most notably the growth of a catholic charismatic movement however another and more recent source of religious pluralism and diversity in latin america is an increasing pluralization and diversification of pentecostalism itself and of the ways in which individual pentecostals exercise their faith by carefully exploring this diversification the book at hand breaks new ground in the literature on latin american christianity particular attention is focused on new ways of being pentecostal and on the consequences of recent transformations of christianity for individuals faith communities and societies more specifically the chapters of the book look into certain transformations of pentecostalism such as theological renewals and new kinds of religious competition between pentecostal churches a growing political and civic engagement of pentecostals an observed de institutionalization of pentecostal religious life and the negotiation individual pentecostal identities composed of multiple intra and extra ecclesial points of identification and the emergence of new generations of pentecostals children of pentecostal parents many of whom have higher levels of

education and higher incomes than the previous generations within their churches in addition catholic responses to pentecostal competition are also addressed in several chapters of the book

this book analyses the variety of pentecostal movements engaging politics in africa mission work in asia and issues of migration in europe and north america

this book is a printed edition of the special issue current trajectories in global pentecostalism culture social engagement and change that was published in religions

this volume traces the history of oneness pentecostalism in north america it maps the major ideas arguments periodization and historical figures corrects long standing misinterpretations and draws attention to how race and gender impacted the growth and trajectories of this movement oneness pentecostalism emerged in the aftermath of the azusa street revival 1906 baptizing its members in the name of jesus christ rather than the father son and holy spirit and splintering from trinitarian pentecostals with its rapid growth throughout the twentieth century especially among ethnic minorities oneness pentecostalism assumed a diversity of theological ethnic and cultural expressions this book reckons with the multiculturalism of the movement over the course of the twentieth century while common interpretations tend to emphasize the restorationist impulse of oneness pentecostalism leading to notions of a static unchanging movement the contributors to this work demonstrate that the movement is much more fluid and that the interpretation of its history and theology should be grounded in the variegated north american contexts in which oneness pentecostalism has taken root and dynamically developed groundbreaking and interdisciplinary this volume presents diverse perspectives on a significant religious movement whose modern origins are embedded within the larger pentecostal story it will be welcomed by religious studies scholars and by practitioners of oneness pentecostalism in addition to the editors the contributors to this volume are daniel chiquete dara coleby delgado patricia fortuny loret de mola manuel gaxiola david reed rosa sailes and daniel segraves

this bibliographic and organizational guide to traditional pentecostalism includes historical information on churches associations and evangelistic and missionary agencies schools and individual proponents and critics of the movement worldwide and related bibliography churches and other agencies are classified by doctrinal tradition more than 6 000 items are included
