social control falls within social psychology which is the branch of knowledge that deals with the psychic interplay between man and his environment in ross terms one of these branches social ascendancy deals with the domination of society over the individual another individual ascendancy embraces such topics as invention leadership the role of great men and deals with the domination of the individual over society social ascendancy is divided into social influence mob mind fashion convention custom public opinion and the like and social control the former is occupied with social domination that is without intention or purpose the latter is concerned with social domination that is intended and that fulfills a function in the life of society at the start of the twentieth century this work played an important role in the origination of social psychology as a distinct field ross sought to determine how far the order we see about us is due to influences that reach men and women without social intervention investigation shows that the personality freely unfolds under conditions of healthy fellowship and may arrive at goodness on its own and that order is explained partly by this streak in human nature and partly by the influence of social surroundings ross book separates the individual's contribution to

social order from that of society and brings to light everything that is considered in the social contribution of the individual. This classic volume is an important contribution to the history of ideas. Edward Alsworth Ross (1866–1951) was known as one of the founders of American sociology and was most famous for his view that the purpose of sociology is the reform of society. He was also professor and chair of the department of sociology at the University of Wisconsin. Some of his work includes *Sin and Society*, *Changing America*, and *The Social Trend*. Matthias Gross is senior research scientist in the Helmholtz Centre for Environmental Research in Leipzig, Germany. He is the author of five books and numerous articles on the history of the social sciences, environmental sociology, and science and technology studies.

The *Handbook of Social Control* offers a comprehensive review of the concepts of social control in today's environment and focuses on the most relevant theories associated with social control, with contributions from noted experts in the field. Across 32 chapters, the depth and scope of the handbook reflects the theoretical and methodological diversity that exists within the study of social control. Chapters explore various topics, including theoretical perspectives, institutions and organizations, law enforcement, criminal justice agencies, punishment and incarceration, surveillance, and global developments. This handbook explores a variety of issues and themes on social control as being a central theme of criminological reflection. The text clearly demonstrates the rich heritage of the major relevant perspectives of social control and provides an overview of the most important theories and dimensions of social control today. Written for academics, undergraduate and graduate students in the fields of criminology, criminal justice, and sociology, the *Handbook of Social Control* is an indispensable resource that explores a contemporary view of the concept of social control.
