resulting from a conference that took place in amiens france in june 2019 this book examines the place and role of objects centered in teaching

practices from kindergarten to university both in the context of france and elsewhere these objects for learning are considered in their physicality as productions work or signs that are used for learning they become objects to learn about when the object itself is the learning objective this book offers a cross disciplinary perspective linking the different disciplinary fields studied and the many reference sources used by the authors this two volume work offers an overview of current research on the subject with this first volume introducing the questions addressed and then going on to investigate the relationship between objects and languages looking at objects at the heart of early learning

the field of stem higher education is currently grappling with the imperative need for transformative discourse to address its historical epistemological and colonial underpinnings despite significant advancements in stem disciplines there remains a critical gap in inclusivity and equity within higher educational institutes recent studies have highlighted the persistent colonial structures that shape stem education often marginalizing diverse voices and perspectives efforts to decolonize stem education are gaining momentum yet there is a pressing need for comprehensive research and reflective insights to uproot these entrenched structures this research topic aims to address these gaps by fostering a robust dialogue that transcends traditional boundaries promoting a deeper understanding of the challenges and opportunities in reshaping stem education through decolonial lenses this research topic aims to provide a scholarly platform for researchers educators and practitioners to contribute groundbreaking research and reflective insights on decolonizing stem higher education the primary goal is to facilitate a robust dialogue that transcends traditional boundaries fostering a deeper understanding of the challenges and opportunities in reshaping stem education through decolonial lenses
