Dr John Thorndyke is a medical jurispractitioner originally a medical doctor he turned to the bar and became one of the first in modern parlance forensic scientists his solutions were based on his method of collecting all possible data including dust and pond weed and making inferences from them before looking at any of the protagonists and motives in the crimes Freeman it is said conducted all experiments mentioned in the stories himself it is this method which gave rise to one of Freeman's most ingenious inventions the inverted detective story where the criminal act is described first and the interest lies in Thorndyke's subsequent unraveling of it
