the writings of ibn khaldūn particularly the muqaddimah prolegomenon have rightly been regarded as being sociological in nature for this reason ibn khaldūn has been widely regarded as the founder of sociology or at least a precursor of modern sociology while he was given this recognition however few works went beyond proclaiming him as a founder or precursor to the systematic application of his theoretical perspective to specific historical and contemporary aspects of muslim

societies in north africa and the middle east the continuing presence of eurocentrism in the social sciences has not helped in this regard it often stands in the way of the consideration of non western sources of theories and concepts this book provides an overview of ibn khaldūn and his sociology discusses reasons for his marginality and suggests ways to bring ibn khaldūn into the mainstream through the systematic application of his theory it moves beyond works that simply state that ibn khaldūn was a founder of sociology or provide descriptive accounts of his works instead it systematically applies khaldūn's theoretical perspective to specific historical aspects of muslim societies in north africa and the middle east successfully integrating concepts and frameworks from khaldūnian sociology into modern social science theories applying ibn khaldūn will be of interest to students and scholars of sociology and social theory
