in 2012 narendra modi became the first hindu nationalist politician thrice elected to lead a state of the indian union his stewardship as chief minister of gujarat being the

longest in that state's history modi and his bjp supporters explained his achievement by pointing to economic growth under his leadership yet detractors point out that modi has been more business friendly than market friendly to the benefit of large industrial corporations and at the cost of great social polarisation in 2002 an anti muslim pogrom of unparalleled ferocity occurred in gujarat leading to the biggest number of muslim deaths since partition the state's hindu majority immediately rallied around modi no serious riot has occurred in gujarat since but polarisation was key to modi's strategy there and he has deployed that strategy again and again since he became prime minister of india in 2014 for modi has cultivated a communal image a marketing genius his messaging combines the politics of hindutva with economic modernisation to the clear appreciation of gujarat's middle class christophe jaffrelot's revealing book shows how modi's gujarat served as the laboratory of modi's india not only in terms of hindu majoritarianism and national populism but also of caste and class politics

a riveting account of how a popularly elected leader has steered the world's largest democracy toward authoritarianism and intolerance over the past two decades thanks to narendra modi hindu nationalism has been coupled with a form of national populism that has ensured its success at the polls first in gujarat and then in india at large modi managed to seduce a substantial number of citizens by promising them development and polarizing the electorate along ethno religious lines both facets of this national populism found expression in a highly personalized political style as modi related directly to the voters through all kinds of channels of communication in order to saturate the public space drawing on original interviews conducted across india christophe jaffrelot shows how modi's government has moved india toward a new form of democracy an ethnic democracy that equates the majoritarian community with the nation and relegates muslims and christians to second class citizens who are harassed by vigilante groups he discusses how the promotion of hindu nationalism has resulted in attacks against secularists intellectuals universities and ngos jaffrelot explains how the political system of india has acquired authoritarian features for other reasons too eager to govern not only in new delhi but also in the states the government has centralized power at the expense of federalism and undermined institutions that were part of the checks and balances including india's supreme court modi's india is a sobering account of how a once vibrant democracy can go wrong when a government backed by popular consent suppresses dissent while growing increasingly intolerant of ethnic and religious minorities

this book presents a comprehensive overview of india's electoral democracy and political system it provides an in depth analysis of the 2019 parliamentary elections to explore three crucial facts of india's political life the legitimacy of political competition as the only basis of power elections as the only legitimate basis of political competition and political parties as the only legitimate agency to conduct political competition the book argues that the vitality and resilience of india's electoral democracy

remain high owing to large mass participation in elections that are competitive and relatively free and fair the volume includes key theoretical empirical and comparative perspectives on parties and elections from experts and covers all major political parties of india along with the performance of many representative regional parties it discusses themes such as elections and party competition in india ideology interest religion and gender as they affect social mobilisation and political transaction economic and political change and multiparty democracy the dynamics of the muslim vote fluctuating electoral fortunes and electoral campaigns and role of social media this book will be an essential read for scholars and researchers of political science political sociology election studies indian politics south asian politics and south asian studies it will also interest those in politics public policy and governance civil society organisations media and journalism and the general reader

authoritarian populism and bovine political economy in modi s india analyses how the twin forces of hindu nationalism and neoliberalism unfold in india s bovine economy revealing their often devastating material and economic impact on the country s poor this book is a rare in depth study of india s bovine economy under narendra modi s authoritarian populism this is an economy that throws up a central paradox on the one hand an entrenched and aggressive hindu nationalist politics is engaged in violently protecting the cow disciplining those who do not sufficiently respect and revere it on the other hand india houses and continuously promotes one of the world s largest corporate controlled beef export economies that depends on the slaughter of millions of bovines every year the book offers an original analysis of this scenario to show how modi s authoritarian populist regime has worked to reconcile the two by simultaneously promoting a virulent hindu nationalism that seeks to turn india into a hindu state while also pushing neoliberal economic policies favouring corporate capital and elite class interests within and beyond the bovine economy the book brings out the adverse impacts of these political economic processes on the lives and livelihoods of millions of poor indians in countryside and city in addition it identifies emerging weaknesses in modi s authoritarian populism highlighting the potential for progressive counter mobilisation it will be of interest to scholars in the fields of development studies south asia studies critical agrarian studies as well as scholars with a general interest in political economy contemporary authoritarian populism and social movements

this book critically examines new perspectives on the transformations in the indian diaspora it studies the changing perspectives on the historical background of the diaspora and analyses fresh and emerging views in response to new configurations in diaspora relations the volume highlights the transformation of the old indian diaspora into a new ensemble in which economic ideological and cultural forces predominate and interact closely it looks at various themes including indian indentured emigration to sugar colonies comparisons between labour migration from india and china the girmitya diaspora the indian diaspora in africa and the rise of racial nationalism india s soft

power in the gulf region and the repurposing of the hindutva idea of india for western societies as undertaken by diaspora communities lucid and topical this book will be useful for scholars and researchers of diaspora studies migration studies political studies international relations globalisation political sociology sociology and south asia studies

contrary to prior expectations narendra modi has expended a significant amount of time energy and political capital in conducting india s engagement with the outside world since becoming prime minister in may 2014 in accordance with wider perceptions about modi there were expectations of significant if not radical change in indian foreign policy under his charge this sentiment led to a section of indian strategists and foreign policy watchers conceiving the notion of a modi doctrine in indian foreign policy this notion of foreign policy doctrines is not new to the analysis of indian foreign policy previous incarnations include the indira doctrine of the 1970s the gujral doctrine for a brief period in the late 1990s and the manmohan doctrine in the period before modi was elected as prime minister this edited volume attempts to interrogate the extent to which indian foreign policy under modi has undergone significant change and the extent to which this manifests itself as a new doctrine in indian foreign policy the individual chapters cover key bilateral relationships the united states china australia and pakistan as well as broader regional relationships south asia and the indian ocean region and specific themes such as economic diplomacy

well written solidly researched and cogently argued shashi tharoor bhanu has ably argued the case kuldip nayar this timely book looks at the many advantages of the presidential system shanta kumar at one time or another dr ambedkar mahatma gandhi m a jinnah sardar patel and many other top leaders strongly opposed india s adoption of the parliamentary system history has proven them right given its diversity size and communal and community divisions the country needed a truly federal setup not the centralized unitary control that the parliamentary system offers why india needs the presidential system tells the dramatic story of how india s current system of government evolved how it is at the root of the problems india faces the result of years of meticulous research this book makes a passionate plea for a radical rethink of india s future as a nation why india needs the presidential system is not just an expose of what is wrong but a serious effort at offering a possible solution
