drivers buy more wheels and tires for their cars and trucks than any other aftermarket accessory this book is a comprehensive source for wheel and tire information whether you want to know how your wheels and tires actually work and how they affect vehicle performance or whether you just need advice as to what best suits your vehicle this book provides the information you are looking for this book covers daily use and competition cars and trucks including off road circle track drag autocross rally and show vehicles beginning with a chapter on vehicle dynamics with explanations of center of gravity slip angle yaw roll and pitch author richard newton then moves on to general information about tires and wheels from materials and construction to use and maintenance he also explores how this general information applies to specific types of vehicles using pertinent examples throughout

this book explores to what extent china has drawn lessons from singapore both in terms of its ruling ideology and through the policy specific learning process in so doing it provides insights into the opportunities but also the challenges of this long term learning process focusing attention to how non democratic regimes deal with modernization the stellar line up of international contributors from china singapore europe and the us offer a variety of perspectives on singapore as a model of authoritarian modernism for china the book discusses how the small southeast asian city state became a major reference point for china how mainland observers often misunderstood the nature of singapore s governance and instrumentalized it to bolster the ccp s legitimacy and why the singapore model appears to be in decline under xi Jinping the chapters also analyze policy specific learning processes including bilateral mechanisms of policy exchange the chinese mayor s class in singapore and joint industrial projects and lessons in social welfare provision the book will be of interest to academics working on chinese politics development in china state society and economy in the asia pacific international relations in the asia pacific and southeast asian politics

throughout human history languages have been in competition with each other as the world becomes more globalized this trend increases it affects the decision making of those in positions of power and determines macro language policies and planning often decisions about language or dialects or language variety are related to usefulness defined in terms of their pragmatic and commercial currency or their value as symbols of socio cultural identity languages can be modes of entry into coveted social hierarchies or strongholds of religious historical technological and political power bases languages are

seen now as commodities that carry different values in an era of globalization this volume engages with language policies and positions in relation to the roles and functions these languages adopt it examines the value of languages defined in terms of the power they have in the global marketplace as much as within the complex matrices of the local socio politics these valuations strongly underpin the various motivations that influence policy making decisions and in turn these motivations create the tensions that characterize many language related issues tensions that arise when languages become commodified
