in uniting music and poetry in twentieth century spain nelson r orringer uses both literary and musical analysis to study sung poems in twentieth century spain in nine chapters each focusing on an individual sung poem song cycle or various poems set by the same composer orringer enriches and deepens

interpretations of the art songs by comparing the poet's vision to the composer's in examining composers such as Falla, Turina, Mompou, Toldrà, Rodrigo, Montsalvatge and Rodolfo Halffter. Orringer shows that Spanish art song is an exceptional product of Spain's silver age and reveals a new way to understand and appreciate poems set to music in twentieth-century Spain.
