life the essentials of human development is a brief account of human development that illustrates how psychological concepts apply to everyday life while exposing students to the role that culture and diversity play throughout the lifespan

pathways of human development uses theoretical perspectives from developmental social and behavioral sciences to examine the many ways that individuals families and communities intersect and interface focusing on the impact of change on human development including its antecedents processes and consequences the chapters examine a range of topics such as health and adaptation social anxiety disorder protective factors and risk behaviors parent child relationships adolescent sexuality intergenerational relationships family stress and adaptation and community resilience by extending human development theorizing across these pivotal life changing issues this volume offers a comprehensive map of the trajectories of development among individuals families and communities

based on research and made personal through anecdotes and real life examples this introduction to human development offers a combination of topical chronological approach an eclectic theoretical perspective and a focus on contemporary issues and concerns

an examination of how thought and emotion are integrated in human development

how malleable is human nature can an individual really change in meaningful ways or are there immutable limits on the possibilities of human growth set in place by genes and early childhood experiences these questions touch our deepest political and personal concerns and have long been a matter of fierce debate in the behavioral sciences

intended as supplemental reading in courses on theories of development this book augments traditional core texts by providing students with more depth on about two dozen recent and emerging theories that have appeared over the past 20 years this period has seen a decline of the traditional grand theories that attempt to apply to all people all the time in

favor of micro theories that focus more on individual differences so a book like this actually points the way toward the future rather than dryly reviewing the past in addition the author inspects the changing ways in which the concept of theory itself has been interpreted during this period and he concludes with a chapter suggesting future directions

three year old kwara ae children in oceania act as caregivers of their younger siblings but in the uk it is an offense to leave a child under age 14 ears without adult supervision in the efe community in zaire infants routinely use machetes with safety and some skill although u s middle class adults often do not trust young children with knives what explains these marked differences in the capabilities of these children until recently traditional understandings of human development held that a child s development is universal and that children have characteristics and skills that develop independently of cultural processes barbara rogooff argues however that human development must be understood as a cultural process not simply a biological or psychological one individuals develop as members of a community and their development can only be fully understood by examining the practices and circumstances of their communities

psychology for nurses

human development in an unequal world deals with the twenty first century challenges of unstable economic growth and sustainability and the re emergence of deprivations and inequalities in multiple realms it argues that the broader perspective of human development is most suited in reorienting development towards a more equitable sustainable and empowering world the authors discuss the concept and philosophy of the capabilities and human development approach its measurement the links between economic growth and human development and the role of social sector policy gender equality and securing sustainability in doing so they analyse frameworks processes institutions and actors and weave together concepts methods and evidence from numerous developing countries the chapters offer an integrated understanding of the importance of capabilities freedoms and human flourishing in the process of development this volume calls for an approach that focuses on the humanness of development and brings people back to the centre stage a phenomenon that has receded to the background in the neoliberal era
