urban politics brings together the classic and contemporary literature on urban politics and history with today's pressing urban issues. This book's central theme is power going beyond the formal institutions and structures of city and suburban government to explain who defines the urban agenda and who benefits from local services and investments. This book also presents a number of subthemes including the impact of globalization, the dominant place of economic development concerns in the urban agenda, and the continuing importance of race and poverty in big city and suburban politics. It also places cities in the larger context of state and federal government politics and policies and discusses the impact of those policies.
