landscape architects should be optimistic for the 21st century with post modern and post postmodern design methods we can attain a leading role in the environmental design and planning professions this short ebook began with an article for landscape architecture magazine lam bafflingly it was rejected for being rather dated the editors obviously know more than we do about their readers interests so we regret the us landscape profession s lack of interest in design theory understood understood as a set of principles for undertaking a task we believe that design theory lies or should lie at the heart of the landscape architecture profession the wikipedia article on post postmodernism in 2015 notes that in 1995 the landscape architect and urban planner tom turner issued a book length call for a post postmodern turn in urban planning turner criticizes the postmodern credo of anything goes and suggests that the built environment professions are witnessing the gradual dawn of a post postmodernism that seeks to temper reason with faith the book was city as landscape and the design approach has developed since then and is now illustrated with examples from the authors of this ebook
