focusing on a highly controversial and fiercely debated subject this survey tracks the social and economic consequences of the production trafficking and consumption of cocaine heroin and cannabis from a growing body of literature lamond tullis has extracted the most salient economic social and political themes currently under discussion in both scholarly publications and in the responsible press the two part volume consisting of a lengthy review of relevant literature and an annotated bibliography helps its users understand the major issues can and should consumption be curtailed supplies suppressed and traffickers eliminated can the unintended economic social and political consequences of curtailing suppressing and eliminating somehow be mitigated should these drugs be legalized would legalization produce its own array of unintended and largely unacceptable consequences although tentative answers to these questions abound this excellent resource is testimony to the fact that there is still little agreement on how to deal with these powerful substances and the problems they generate tullis s compilation presents the best overview of this complex subject to date the first half of this two part reference consists of a survey of the published literature on the production and consumption of the three illicit drugs chapters are devoted to the global patterns of production and consumption of cocaine heroin and cannabis to the consequences both positive and negative of drug consumption and production and to the policy measures that have been adopted or are under consideration in both consuming and producing countries these chapters will be of interest to those wishing to obtain an overall view of the subject and to specialists seeking a guide to the literature outside their particular area of knowledge the second half of the book contains an annotated bibliography of about 2 000 items covering works published in english plus a few in spanish as books articles or press reports this section will be invaluable to researchers working on the frontiers of the subject and to general readers who wish to pursue particular topics in greater depth the volume should be at the fingertips of policy makers legislators law enforcement officials judges and social workers as well as students and teachers

civil liberties private sector perspectives and public health and safety issues are critical in an attempt to establish a national policy on mandatory testing for aids and drug abuse this latest volume in the brookings dialogues on public policy is the product of two brookings conferences on aids and drug testing the first conference was held in washington dc october 20 21

1987 and the second in racine wisconsin march 8 10 1988 participants attempted to confront the intense political controversy and public fear engendered by the spread of aids and the use of illicit drugs in the untied states though no single policy recommendation emerged from the meeting the experts reached some points of consensus on possible approaches to testing that would respect the needs values and circumstances of affected communities we are grateful to the countless individuals who participated in the planning meetings and studies that preceded the conferences we are also thankful for the encouragement of brookings trustee james d wolfensohn to examine the policy issues connected with drug abuse in the united states

no wonder the war on drugs is being lost the warriors arrows are all pointed in the wrong directions the black market driven effects of prohibition which include crime and its spiraling scourges as well as death and disease are overall counterproductive ironically the severe penalties intended to halt serious abuse intimidate the occasional user but not the real target whose desperate search for consolation in drugs is more result than cause of the misery of marginalization the rationale for reform most commonly rooted in a cost benefit comparison public harm versus public health or in the libertarian argument comprises the first part of this persuasive plea for a paradigm shift and paves the way for the second on approaches to legalizing drugs
