this book shows how dante alighieri has been represented in the italian collective
imagination from the late eighteenth century to the present day often held to be a
precursor of italian unity the author of the divine comedy has been put forward both as a
standard bearer of a secular anti clerical italy and the embodiment of the concept of a
deeply religious and catholic nation while he was later adopted by nationalist and fascists
as well as a pop icon in the age of the internet and globalization the book describes this
long and fascinating history from a completely original point of view the centuries old
myth of dante is analysed from the perspective of cultural history the sources employed
include dante commemorations festivals and monuments pilgrimages to his tomb films
and other media productions about dante as well as comic strips advertisements and

other cultural items dedicated to him

why in the pre industrial period were some settlements resilient and stable over the long term while other settlements were vulnerable to crisis indeed what made certain human habitations more prone to decline or even total collapse than others all pre industrial societies had to face certain challenges exogenous environmental hazards such as earthquakes or plagues economic or political hazards from outside such as warfare or expropriation of property or hazards of their own making such as soil erosion or subsistence crises how then can we explain why some societies were able to overcome or negate these problems while other societies proved susceptible to failure as settlements contracted stagnated were abandoned or even disappeared entirely this book has been stimulated by the questions and hypotheses put forward by a recent disaster studies literature in particular by placing the intrinsic arrangement of societies at the forefront of the explanatory framework essentially it is suggested that the resilience or vulnerability of habitation has less to do with exogenous crises themselves but on endogenous societal responses which dictate a the extent of destruction caused by crises and the capacity for society to protect itself and b the capacity to create a sufficient recovery by empirically testing the explanatory framework on a number of societies between the middle ages and the nineteenth century in england the low countries and italy it is ultimately argued in this book that rather than the protective functions of the state or the market or the implementation of technological innovation or capital investment the most resilient human habitations in the pre industrial period were those than displayed an equitable distribution of property and a well balanced distribution of power between social interest groups equitable distributions of power and property were the underlying conditions in pre industrial societies that all

the literary artistic and scientific culture of early modern naples is closely linked to the natural topography of the city stretching from iacopo sannazaro s poetic evocation of the campania landscape to giambattista vico s approach in which he anchors human civilization to the existential confrontation with natural forces with the open sea the rocky coastline and the menacing presence of vesuvius the image of naples more than any other city in early modern times is associated in the collective imagination with the forces of nature even the populace was interpreted as a force of nature in this volume art literature and science historians investigate the convergence of culture and nature in a unique geographic context
