Before you even think about a workout you need to assemble your treadmill. While a full visual guide is best obtained from the original packaging or online videos these general steps should help:

- Step 1 Check the Contents**  
Carefully unpack all boxes and verify that all components listed in the original packaging list are present. This includes the treadmill deck frame, console, motor, handrails, and all necessary hardware, bolts, screws, and washers. If anything is missing, contact Dynamix customer support immediately.
- Step 2 Prepare the Assembly Area**  
Choose a spacious, level area with enough room to maneuver around the treadmill. A welllit space is also recommended. Protect your floor with a mat or carpet to prevent scratches.
- Step 3 Frame Assembly**  
Typically the first step involves assembling the treadmill frame. This usually involves connecting the base, upright supports, and the motor housing. Follow the diagram in your original instruction manual, carefully tightening bolts securely but avoiding overtightening.
- Step 4 Deck Installation**  
Once the frame is assembled, carefully attach the treadmill deck, ensuring it's properly aligned and secured. This step often involves aligning and securing pins and bolts.
- Step 5 Console and Handrail Attachment**  
Attach the console to the frame and then secure the handrails. Pay close attention to cable connections; ensure all wires are properly connected to avoid malfunction.
- Step 6 Final Checks and Power Up**  
Before plugging in the treadmill, conduct a thorough visual inspection to make sure all parts are securely fastened. Plug in the machine and test all functions: speed, incline, display, Example. If you're struggling with aligning the deck, refer to the exploded diagram in the manual. It usually highlights key alignment points and the correct sequence of tightening bolts.
