over the course of 80 years television has produced countless programs many of which fit a particular profile did you know for example some programs are devoted to ghosts genies angels and even mermaids color broadcasting was first tested in 1941 live models were used to advertise lingerie as early as 1950 or that nudity although accidental occurred on tv long before cable was even thought possible these are just a few of the many facts and firsts that can be found within the 145 entries included appropriate for fans and scholars and bursting with obscure facts this work traces the evolution of specific topics from 1925 through the 2005 2006 season entries include such diverse themes as adolescence adult film actresses on tv bars espionage gays immigrants lawyers transsexuals and truckers as well as locations like canada hawaii new york and los angeles each entry is arranged as a timeline clearly displaying how television s treatment of the subject has changed through the years each entry is as complete as possible and contains series pilot special and experimental program information whether just a fan of television and eager to know more about the medium or a scholar seeking hard to find facts and information this book traces the history of specific topics from television s infancy to its changes in the early

twenty first century

containing the public messages speeches and statements of the president 1956 1992

aging studies and ecocriticism interdisciplinary encounters argues that both aging studies and ecocriticism address the complex dynamics of individual and collective agency oppression and dependency care and conviviality vulnerability and resistance as well as intergenerationality and responsibility yet even though both fields employ overlapping methodologies and theoretical frameworks and scrutinize boundary texts in different literary genres which have been analyzed from ecocritical perspectives as well as from the vantage point of critical aging studies there has been little scholarly interaction between ecocritical literary studies and aging studies to date the contributors in this volume demonstrate the potential of specific genres to narrate relationality and age and the aesthetic and ethical challenges of imagining changes endings and survival in the anthropocene as the first step towards putting both fields in conversation this collection offers new pathways into understanding human and nonhuman ecological relations

written in british english in the iraq war significant events that shaped the war are explored including the background to war the clashes over weapons inspections the fall of saddam hussein the worsening violence inside iraq the iraqi elections and the withdrawal of troops

in 2010 journalist wen stephenson woke up to the true scale and urgency of the catastrophe bearing down on humanity starting with the poorest and most vulnerable everywhere and confronted what he calls the spiritual crisis at the heart of the climate crisis inspired by others who refused to retreat into various forms of denial and fatalism he walked away from his career in mainstream media and became an activist joining those working to build a transformative movement for climate justice in america provided by publisher

humanity is failing at solving complex socio ecological problems like global climate change biodiversity loss and population growth the existing sustainable development paradigm and its reliance on trade offs between the three pillars of environment economics and equity is not robust enough to maintain global carrying capacity in this timely intervention thomas argues that the holistic and transdisciplinary thinking of four iconic american naturalists henry david thoreau aldo leopold rachel carson and edward o wilson can instead help to solve our biggest twenty first century challenges by synthesizing values from four eras of cultural and environmental history
