poems to lisi is presented here as an undergraduate student text with parallel text english

verse translations this edition of quevedo's poems to lisi is a successor to the same editor's original text in exeter hispanic texts which only contained the spanish text of the poems published in 1988 rather than reprint that edition the editor has chosen to make the text more widely available by setting his own english verse translations alongside the spanish originals it is intended to provide undergraduates in hispanic studies with an accessible edition of a key work of the spanish golden age the translations are close enough to the originals to be of value to those who have an adequate knowledge of spanish while the rendering of the poems into english verse mainly blank verse sonnets will enable those lacking such a knowledge to read them as poems in their own right

twentieth century spanish poetry has received comparatively little attention from critics writing in english andrew debicki now presents the first english language history published in the united states to examine the sweep of modern spanish verse more important he is the first to situate spanish poetry in the context of european modernity to trace its trajectory from the symbolists to the postmodernists avoiding the rigid generational schemes and catalogs of names found in traditional hispanic literary histories debicki offers detailed discussions of salient books and texts to construct an original and compelling view of his subject he demonstrates that contemporary spanish verse is rooted in the modern tradition and poetics that see the text as a unique embodiment of complex experiences he then traces the evolution of that tradition in the early decades of the century and its gradual disintegration from the 1950s to the present as spanish poetry came to reflect features of the postmodern especially the poetics of text as process rather than as product by centering his study on major periods and examining within each the work of poets of different ages debicki develops novel perspectives the late 1960s and early 1970s for example were not merely the setting for a new aestheticist generation but an era of exceptional creativity in which both established and new writers engendered a profound intertextual and often self referential lyricism this book will be essential reading for specialists in modern spanish letters for advanced students and for readers interested in comparative literature
