although never named as such the landscape of sanremo was a visual source for calvino s fiction this recurring theme provides both a link between some very different works and an insight into the autobiographical dimension of an author whose attitude to privacy is protective but detached this work is an analysis of the criteria of representative and of representational distortion of a descriptive motif

looking at five of italo calvino s often neglected early novels the young people of po the cloven viscount the baron in the trees the non existent knight and the watcher eugenio bolongaro argues that these works written between 1948 and 1963 contain a sustained meditation on the role of the intellectual and on the irreducible ethical and political dimension of literature this meditation provides an insight into a crucial moment in calvino s development as a writer and allows bolongaro to lay the groundwork for a more political reading of calvino s later work italo calvino and the compass of literature firmly situates calvino within his historical context the cultural revival of post world war ii italy by relating these early novels to calvino s political and critical writings which played an important role in the cultural debates of the time this approach provides a key to understanding calvino s work in a new light ably demonstrating that calvino s full literary significance cannot be understood in isolation from the politics and cultural movements of the period one of the few book length english language works on calvino s early writings italo calvino and the compass of literature will prove to be an indispensable tool to italianists and literary studies scholars

highlights calvino s fascination with folk tales knights social political allegories science fiction

this bibliography lists english language translations of twentieth century italian literature published chiefly in book form between 1929 and 1997 encompassing fiction poetry plays screenplays librettos journals and diaries and correspondence

un ragazzo sale su di un albero si arrampica tra i rami passa da una pianta all'altra decide che non scenderà più. L'autore del libro non ha fatto che sviluppare questa immagine e portarla alle estreme conseguenze il protagonista trascorre l'intera vita sugli alberi

the former editor of science fiction studies robert m philmus now casts his expert eye on a diverse range of short stories and novels by the premier creators of science fiction including george orwell c s lewis and ursula leguin with essays on such masters of the genre as stanislaw lem kurt vonnegut and philip k dick the volume provides an in depth textual examination of science fiction as a truly revisionary genre visions and revisions will be of immense value to scholars of literature and science fiction studies

she uncovers the apparent contradiction that while calvino repeatedly advocated throughout his career of forty plus years a precise language this call for precision did not extend to erotic subject matter where calvino sometimes felt that direct representation was virtually impossible gabriele finds that in calvino the challenge of erotic representation is linked to the complexity of the writer's role especially as articulated in calvino's famous article *cibernetica e fantasmi*

examining calvino's literary experiments as a young artist in search of his narrative voice ricci explores the psychological and existential motivations intrinsically linked to the writer's need for textual and systemic patterning i racconti contains some of calvino's least read works yet these early stories address issues present scenarios and

generate a growing variation of themes that form the heart of calvino s narrative discourse ricci points out that melancholy permeates calvino s works even at his most playful he suggests that if calvino s highest merit was his sense of wonder and his urge to transform and defeat obscurantism with all the joy he could muster one must remember that his work expressed often painfully the limits of human rationalism i racconti can thus be read as a catalogue of the anxieties of both the young author and postwar italian society

throughout the novels and stories the cosmicomical tales with their focus on science are seen as crucial to the development of the symbolic mindscapes that made calvino a major international writer he died before arriving at any satisfactory solution to the problems of relating the i to the not i but hume derives from his later works a philosophy based on the creation of likenesses of internal microcosms that permit us to mirror the macrocosm these interior
