six ideas that shaped physics is consistent with the three basic principles of the iupp the pace  
of the introductory course should be reduced so that a broader range of students can achieve  
an acceptable level of competence and satisfaction there should be more contemporary physics  
in the course and the course should use one or more story lines to help organize ideas and  
help motivate student interest the author adds three principles of his own to help round out  
this exceptional outlook the course should seek to embrace the best of what educational  
research has taught us about conceptual and structural problems with the standard course the  
course should stake out a middle ground between the standard introductory course and exciting  
but radical courses that require a substantial investment in infrastructure and or training and  
the course should be useful in fairly standard environments and should be easy for teachers to  
understand and adopt this carefully organized system of learning aims to assist students gain  
confidence as they proceed to more difficult concepts
