this book is a concordance to help you find study and live the teachings of the big book of alcoholics anonymous a concordance is an alphabetical index of principal words along with these words is given the chapter page and line number to help you find your word or topic in every place in the book that it shows up you will be amazed at how quickly you can find what you are looking for how clear the whole picture becomes when you can locate all the parts in the big book that pertain to the subject you are searching for subject by subject thought by thought you can have the knowledge you need more quickly than ever before you can do word studies faster than you ever imagined and find the phrase you want to quote in a moments time with this tool put together topics like new freedoms prayer what god can do what resentment does to us and many more sobriety coupled with spiritual progress is our main goal so that we can be happy joyous and free this book will help you to attain that on the last few pages are listed some of the teachings from the big book and a few topics i put together myself that are not only helpful but show you what you can do when you start using this book it ends with a poem that tells who we are

this book is intended to help readers treat persons who are considered to be difficult clients the approach is practical with a minimum of theoretical assumptions and jargon and can be integrated into almost all other approaches to treatment when therapy stalls midwest

both architecture and anthropology emerged as autonomous theoretical disciplines in the 18th century enlightenment throughout the 19th century the fields shared a common icon the primitive hut and a

common concern with both routine needs and ceremonial behaviours both could lay strong claims to a special knowledge of the everyday and yet in the 20th century notwithstanding genre classics such as bernard rufosky's architecture without architects or paul oliver's shelter and various attempts to make architecture anthropocentric such as corbusier's modulor disciplinary exchanges between architecture and anthropology were often disappointingly slight this book attempts to locate the various points of departure that might be taken in a contemporary discussion between architecture and anthropology the results are radical post colonial theory is here counterpoised to 19th century theories of primitivism archaeology is set against dentistry fieldwork is juxtaposed against indigenous critique and climate science is applied to questions of shelter this publication will be of interest to both architects and anthropologists the chapters in this book were originally published within two special issues of architectural theory review

this work is an orientation to a craft of great richness and interest the authors describe the defining elements of the accumulated working knowledge of psychodynamic psychotherapy it revisits the raw pointedness of old questions what is psychotherapy what makes it meaningful what do i say when a patient asks me how therapy works how long will it take how does change happen

in a landmark book on human consciousness a pioneering scientist provides a cutting edge new theory on the dna of thought

the narrator travels in mexico with a party including a franciscan monk and an indian youth to find a lost race of aztecs and a hidden treasure of gold jewels and writings
