an illuminating and robust introduction to economics principles the fourteenth edition of lipsey and chrystal's established textbook continues to provide complete coverage for those new to micro and macroeconomics the authors help students to understand the subject matter through a combination of lucid explanation and supportive learning features which encourage independent thought the principles are examined through a theoretical lens before empirical examples demonstrate how the concepts work in practice the applied nature of the models is further emphasised by case studies from around the world which encourage students to develop and contextualise their understanding of the key themes suitable for beginners the authors provide in depth explanations of key theoretical concepts which relate to a wide range of applied material end of chapter questions give students the opportunity to test their knowledge and advance their critical thinking skills economics undergraduates studying a core module on the principles of economics it may also be suitable for students taking business management or finance and accounting degrees who are taking a module which introduces economics this book is accompanied by online resource to support both students and lecturers for students self test questions flashcard glossary additional chapter material links for lecturers powerpoint slides instructor's manual test bank additional chapters covering economics of developing countries and macroeconomic policy in an open economy

the eleventh edition of this successful textbook for economics majors has been thoroughly updated and revised to give more depth to core principles pitched at a level that will stretch readers but still comprehensible for beginners economics is explained in a straightforward manner whilst maintaining the rigour needed to enable students to progress with their studies the book features a depth and breadth of topics combined with a balance of technical and applied material in depth explanations of theoretical concepts are balanced with a range of real world examples help students to understand and apply the concepts they have learnt a supporting and newly expanded online resource centre features supplements for lecturers including an instructor's manual powerpoint slides answers to questions in the text class

exercises and artwork from the text supplements for students include self assessment multiple choice questions with feedback crosswords compiled from key glossary terms a list of useful websites maths appendices past exam papers and additional case studies

when asked to describe this text most lipsey readers use the same word precise the authors do not gloss over subjects when presenting economic ideas rather they offer a patient explanation of the concept and back it up with the latest research and data taken separately neither theory nor data alone can give students a true understanding of the idea but when combined these elements give students a complete view of economics in the real world the thirteenth edition is significantly revised to reflect the latest advancements in the field including major updates to monetary policy globalization issues and hot research areas like experimental economics economic debates are explored for each major concept so students learn to analyze policy intuitively and from an economic perspective for today's student on the go this portable version of economics is three hole punched so students can take only what they need to class incorporate their own notes and save money each book's la carte text arrives with a laminated study card perfect for students to use when preparing for exams plus access to myeconlab in coursecompass tm myeconlab in coursecompass tm provides additional optional customization and communication tools instructors who teach distance learning courses or very large lecture sections find the coursecompass tm format useful because they can upload course documents and assignments customize the order of chapters and use communication features such as digital dropbox and discussion board view a demo of myeconlab for more information about myeconlab in coursecompass tm or to request an instructor access code visit myeconlab

richard lipsey and alec chrystal have rewritten their global bestseller to take account of the latest international developments whilst revising their core material to ensure students have the best possible grounding in economics
