campaigns and the media health care and health care management is also a quiet and unrelenting concern in the private and personal lives of individuals who worry about someday having to choose between food and prescription drugs for this reason in today's health care industry good business practices may be as important as the practice of medicine in assuring the continued health of the industry the encyclopedia of health care management will prove invaluable to libraries serving students and professionals in health and business it will also be an essential reference for physicians providers and their employees and students and professors in health and management for responsible and successful practice and administration in the health care industry this encyclopedia is the most comprehensive reference work on the business of health care with up to date information across a broad range of issues affecting every aspect of the industry and the people it serves employs and influences key features the most comprehensive reference work on health care management broad range of timely topics spanning academic corporate and governmental arenas over 600 entries more than 160 expert contributors in the fields of medicine public health and business tables on health care acronyms medical degrees medical legislation medical organizations medical specialties about the editor michael j stahl ph d is director of the physician executive mba program and distinguished professor of management in the college of business at the university of tennessee knoxville dr stahl received his b s in electrical engineering from the state university of ny at buffalo and his ph d in management from rensselaer polytechnic institute from 1982 1989 stahl was head of the management department at clemson university he was associate dean in the college of business at the university of tennessee from 1989 1997 dr stahl has published over 50 journal articles in a variety of areas including strategic management tq and healthcare as well as twelve books including strategic management perspectives in tq and the physician's essential mba he teaches strategy and business planning in the physician emba taiwan emba and mba programs recommended libraries academic public special private corporate

master's thesis from the year 2005 in the subject engineering industrial engineering and management grade 2.0 stellenbosch university course operations management language english abstract the research report takes an in depth look at the automotive industry and their major participants in the upstream value chain the different parties involved are the automotive manufacturers oems and their suppliers the overall goal of the following report is to identify suitable business models for small to medium sized sme automotive suppliers as the automotive value chain currently undergoes an evolutionary change towards a diminishing vertical integration of the oems it becomes a challenging issue to reconfigure the

responsibilities of the suppliers thereby oems and their suppliers have to cope with a shift from a functional to a process orientated value chain during this reorganization of the oem supplier interface enterprises realign their strategic intent towards their core competencies as well besides the shifting value chain both suppliers and oems have to cope with a consolidation in their industries this consolidation is impacted by stagnating traditional markets an ongoing globalization of the value chain and an increasing productivity pressure in the automotive industry looking at the automotive supplier it becomes obvious that the suppliers are on the one hand challenged by productivity pressures and on the other hand have the opportunity to take over more business of the automotive value chain the growth potential requires changes in the area of supply chain management and new types of collaboration in the supply network this prospective development is mainly influenced by a trend towards the outsourcing of entire processes by the oems and the increasing need for future innovations in the automotive industry after discussing the above mentioned issues the report analyses the role of suppliers with respect to their main customers the automotive oems based on the findings business models for suppliers are assessed and key success factors for small to medium sized suppliers are proposed and evaluated the findings of the evaluation are translated into suggestions for most suitable business models of smes the report concludes with recommendations for the strategy building process indicates problems concerning the shifting value chain and points out the importance of further research in the field of the small to medium sized automotive supplier industry
