throughout the twentieth century governments sought to achieve development not only in their own countries but also in other regions of the world particularly in africa asia latin america and the caribbean this focus on development as a goal has continued into the twenty first century for example through the united nations millennium development targets while development is often viewed as something very positive it is also very important to consider the possible detrimental effects it may have on the natural environment different social groups and on the cohesion and stability of societies in this important book katie willis investigates and places in a historical context the development theories behind contemporary debates such as globalization and transnationalism the main definitions of development and development theory are outlined with a description and explanation of how approaches have changed over time the differing explanations of inequalities in development both spatially and socially and the reasoning behind different development policies are also considered by drawing on pre twentieth century european development theories and examining current policies in europe and the usa the book not only stresses commonalities in development theorizing over time and space but also the importance of

context in theory construction this topical book provides an ideal introduction to development theories for students in geography development studies area studies anthropology and sociology it contains student friendly features including boxed case studies with examples definitions summary sections suggestions for further reading discussion questions and website information

dr preston s book first published in 1982 presents a critical history of development studies since the second world war linking the recent neo marxist debate with the whole tradition in the field going back to the work of economists like arthur lewis he identifies a series of schools and evaluates their contribution supplying in each case a careful analysis informed by the sociology of knowledge of the work of its leading theorists his final assessment draws on the critical theory of habermas arguing that social theorising is essentially practical a matter of the construction criticism and comparative ranking of ideologies and that theorists should therefore consider what it makes sense for them to do or say given their circumstances and the problems they address
