highlighted providing a more complete picture of the complexities inherent in our economic world back cover

publisher description

this volume compiles the latest research and theory on close relationships in the twenty first century from multi disciplinary and international perspectives with the intent of taking stock of the cultural political and legal changes that have shaped the relationship landscape some of the important shifts that are captured are the rise of singlehood online dating and cohabitation the new importance of social media marriage equality and changes in gender norms new ways of forming families and unions via adoption assisted reproduction and remarriage are also covered as well as coupling across cultural racial religious and national lines

presents a collection of articles on human computer interaction covering such topics as applications methods hardware and computers and society

this book is an appreciation of the long and illustrious career of milton lodge having begun his academic life as a kremlinologist in the 1960s milton lodge radically shifted gears to become one of the most influential scholars of the past half century working at the intersection of psychology and political science in borrowing and refashioning concepts from cognitive psychology social cognition and neuroscience his work has led to wholesale transformations in the way political scientists understand the mass political mind as well as the nature and quality of democratic citizenship in this collection lodge s collaborators and colleagues describe how his work has influenced their own careers and how his insights have been synthesized into the bloodstream of contemporary political psychology the volume includes personal reflections from lodge s longstanding collaborators as well as original research papers from leading figures in political psychology who have drawn inspiration from the lodgean oeuvre reflecting on his multi faceted contribution to the study of political psychology the feeling thinking citizen illustrates the centrality of lodge s work in constructing a psychologically plausible model of the democratic citizen

first handbook to integrate environmental psychology and conservation psychology

this fifteen edition of taking sides social issues presents current controversial issues in a debate style format designed to stimulate student interest and develop critical thinking skills each issue is thoughtfully

framed with an issue summary an issue introduction and a postscript an instructor s manual with testing material is available for each volume using taking sides in the classroom isbn 0073343900 is also an excellent instructor resource with practical suggestions on incorporating this effective approach in the classroom each taking sides reader features an annotated listing of selected world wide sites and is supported by our student website mhcls com online

oriented toward the introductory student the inequality reader is the essential textbook for today s undergraduate courses the editors david b grusky and szonja szelenyi have assembled the most important classic and contemporary readings about how poverty and inequality are generated and how they might be reduced with thirty new readings the second edition provides new materials on anti poverty policies as well as new qualitative readings that make the scholarship more alive more accessible and more relevant now more than ever the inequality reader is the one stop compendium of all the must read pieces simply the best available introduction to the stratifi cation canon

we need scarcely note that the topic of this book is the stuff of headlines around the world political economic educational military religious and social relations of every variety have a racial or ethnic component one cannot begin to understand the history or contemporary situation of the united states the soviet union china zimbabwe south africa great britain lebanon mexico canada indeed almost any land without careful attention to the influence of cultural and racial divisions preparation of this new edition has brought a strong sense of deja vu with regard both to the persistence of old patterns of discrimination even if in new guises and also to the persistence of limited and constraining explanations we have also found however rich new empirical studies new theoretical perspectives and greatly expanded activity and analyses from members of minority groups although this edition is an extensive revision with reference both to the data used and the theoretical approaches examined we have not shifted from our basically analytical perspective we strongly support efforts to reduce discrimination and prejudice but these can be successful only if we try to understand where we are and what forces are creating the existing situation we hope to reduce the tendency to use declarations and condemn nations of other persons actions as substitutes for an investigation of their causes and consequences
