when charles darwin finished the origin of species he thought that he had explained every clue but one though his theory could explain many facts darwin knew that there was a significant event in the history of life that his theory did not explain during this event the cambrian explosion many animals suddenly appeared in the fossil record without apparent ancestors in earlier layers of rock in darwin s doubt stephen c meyer tells the story of the mystery surrounding this explosion of animal life a mystery that has intensified not only because the expected ancestors of these animals have not been found but because scientists have learned more about what it takes to construct an animal during the last half century biologists have come to appreciate the central importance of biological information stored in dna and elsewhere in cells to building animal forms expanding on the compelling case he presented in his last book signature in the cell meyer argues that the origin of this information as well as other mysterious features of the cambrian event are best explained by intelligent design rather than purely undirected evolutionary processes

indigenous knowledge plays a key role in sustainable practices and has been the fundamental part in many areas including agriculture health care education fisheries food preparation and conservation this book consists of six articles which deal with indigenous knowledge and local wisdom related to natural resources this book mainly discusses the use of natural resources as a source of food and economy and how the local communities use the resources for their survival another aspect presented in this book is the integration of science and natural resources as well as its usefulness in facilitating human s life besides presents the interconnectedness and dynamic relationship between humans biodiversity and environment including plants and animals this book also highlights the implementation of an appropriate technology in utilizing the natural resources for sustainable use indigenous knowledge and sustainable practice is definitely a resource for students researchers and academicians especially from the field of science and those who are interested in knowing and learning the local knowledge in natural sciences and technology with the focus in the malaysian context page 4 of cover

for those who are unsettled by what they see around them and want to join in the fight against racist ideologies what if everything you thought you knew about race was wrong race is associated with socioeconomic status social mobility cultural expression who we marry our friends our internal and social identities and nearly every aspect of our society but where did it come from and why does it persist it s time to break free from the myths that divide us staring now rethinking race reveals that race has no biological basis instead it was created as a tool of division determining who holds power and who is denied it grounded in research yet accessible this book unpacks the origins of racial categories and the inequalities they sustain more importantly it offers a bold solution dismantling these artificial divisions to build a more just world are you ready to open your mind to deconstruct the use of race in society

the field of genetics is rapidly evolving and new medical breakthroughs are occurring as a result of advances in our knowledge of genetics advances in genetics continually publishes important reviews of the broadest interest to geneticists and their colleagues in affiliated disciplines
