a systematic examination of language policies in canada based on domestic and international comparisons

there is no consensus about what someone who has violated society s rules must do in order to be fully restored to the community although repentance is a prominent idea in religions ranging from judaism christianity and islam to buddhism and hinduism its use in civic culture is vague and inconsistent for example is remorse the same as repentance drawing from a variety of religious and civic perspectives the renowned contributors to this book from the fields of theology philosophy and the social sciences offer a broad understanding of repentance and its many applications the essays question the legitimacy of repentance as a religious concept for the civic culture exploring the way in which the religious origins of repentance might both illuminate and facilitate our civic usage of the idea excellent for theologians philosophers moral ethicists and anyone asking who deserves a second chance

this text argues that the civil war truly formed the american nation and that the antebellum period was the crucial phase of american national construction grant focuses on a northern nationalism based on an opposition to things southern and links national construction with european nationalism

this collection offers alternative explanations of local actions with a focus on conflict it features examples of experiences selected from various cities it examines how the responses of local governments to specific issues are influenced by such factors as political culture and institutions

where did the era of divided government come from what sustains split partisan control of the institutions of american national government year after year why can it shift so easily from democratic or republican presidencies coupled with republican or democratic congresses how can the vast array of issues and personalities that have surfaced in american politics over the last forty years fit so neatly within indeed reinforce the sustaining political pattern of our time these big questions constitute the puzzle of modern american politics the old answer a majority and a minority party plus dominant and recessive public issues will not work in the era of divided government byron shafer a political scientist who is regarded as one of the most comprehensive and original thinkers on american politics provides a convincing new answer that has three major elements these elements in combination not divided government as a catch phrase are the real story of politics in our time the first element is comprised of two great sets of public preferences that manifest themselves at the ballot box as two majorities the old cluster of economic and welfare issues has not so much been displaced as simply joined by a second cluster of cultural and national concerns the second element can be seen in the behavior of political parties and party activists whose own preferences don t match those of the general public that public remains reliably left of the active republican party on economic and welfare issues and reliably right of the active democratic party on cultural and national concerns the third crucial element is found in an institutional arrangement the distinctively american matrix of governmental institutions which converts those first two elements into a framework for policymaking year in and year out in the first half of the book shafer examines how dominant features of the reagan first bush clinton and second bush administrations reflect the interplay of these three elements recent policy conflicts and institutional combatants in shafer s analysis illuminate this new pattern of american politics in the second half he ranges across time and nations to put these modern elements and their composite pattern into a much larger historical and institutional framework in this light modern american politics appears not so much as new and different but as a distinctive recombination of familiar

elements of a political style a political process and a political conflict that has been running for a much much longer time

it is difficult to ignore the fact that even as the united states becomes much more racially and ethnically diverse our neighborhoods remain largely segregated the 1968 fair housing act and 1977 community reinvestment act promised to end discrimination yet for millions of americans housing options remain far removed from the american dream why do most neighborhoods in american cities continue to be racially divided the problem suggests mara sidney lies with the policies themselves she contends that to understand why discrimination persists we need to understand the political challenges faced by advocacy groups who implement them in unfair housing she offers a new explanation for the persistent color lines in our cities by showing how weak national policy has silenced and splintered grassroots activists sidney explains how political compromise among national lawmakers with divergent interests resulted in housing legislation that influenced how community activists defined discrimination what actions they took and which political relationships they cultivated as a result local governments became less likely to include housing discrimination on their agendas existing laws went unenforced and racial segregation continued a former undercover investigator for a fair housing advocacy group sidney takes readers into the neighborhoods of minneapolis and denver to show how federal housing policy actually works she examines how these laws played out in these cities and reveals how they eroded activists capability to force more sweeping reform in housing policy sidney also shows how activist groups can cultivate community resources to overcome these difficulties looking across levels of government to analyze how national policies interact with local politics in the first book to apply policy design theories of anne schneider and helen ingram to an empirical case sidney illuminates overlooked impacts of fair housing and community reinvestment policies and extends their theories to the study of local politics and nonprofit organizations sidney argues forcefully that understanding the link between national policy and local groups sheds light on our failure to reduce discrimination and segregation as battles over fair housing continue her book helps us understand the shape of the battlefield and the prospects for victory

the first comprehensive study of all 114 state constitutional conventions for which there are records from connecticut s in 1818 to new hampshire s in 1984 by integrating state constitution makers with the federal constitutional tradition this path breaking work yields a

superior understanding of how american citizens have chosen to govern themselves
