the gestalt therapy of sensory awakening through spontaneous personal encounter fantasy and contemplation

this book features scientists from a broad spectrum of disciplines discussing recent data on aggression in laboratory animals with particular reference to possible implications for understanding human aggression chapters focus on the major current experimental issues in the study of aggression in humans and animals the extensive discussions deal with specific problems of interpretation at the molecular level as well as general issues relating to our understanding of human and animal aggression

since 1933 when a completely drugged and trial conditioned human wreck confessed to having started the reichstag fire in berlin dr joost a m meerloo has studied the methods by which systematic mental pressure brings people to abject submission and by which totalitarians imprint their subjective truth on their victims minds dr meerloo spent the first two and one half years of wwii under the pressure of nazi occupied holland witnessing at first hand the nazi methods of mental torture on more than one occasion then after personal experiences with enforced interrogation he escaped from a nazi prison and certain death to england where he was able as chief of the psychological department of the netherlands forces to observe and study coercive methods officially after the war he came to the united states as more and more cases of thought control brainwashing and mental coercion were disclosed cardinal mindszenty colonel schwable robert vogeler and others his interest grew it was dr meerloo who coined the word menticide the killing of the spirit for this peculiar crime it is dr meerloo s position that through pressure on the weak points in men s makeup totalitarian methods can turn anyone into a traitor and in the rape of the mind he goes far beyond the direct military implications of mental torture to describing how our own culture unobtrusively shows symptoms of pressurizing people s minds he presents a systematic analysis of the methods of brainwashing and mental torture and coercion and shows how totalitarian strategy with its use of mass psychology leads to systematized rape of the mind he describes the new age of cold war with its mental terror verbocracy and semantic fog the use of fear as a tool of mass submission and the problem of treason and loyalty so loaded with dangerous confusion the rape of the mind is written for the interested layman not only for experts and scientists

the behavior of animals an updated view of animal behavior studies featuring global experts the behavior of animals second edition provides a broad overview of the current state of animal behavior studies with contributions from international experts this edition includes new chapters on hormones and behavior individuality and human evolution all chapters have been thoroughly revised and updated and are supported by color illustrations informative callouts and accessible presentation of technical information provides an introduction to the study of animal behavior looks at an extensive scope of topics from perception motivation and emotion biological rhythms and animal learning to animal cognition communication mate choice and individuality explores the evolution of animal behavior

including a critical evaluation of the assumption that human beings can be studied as if they were any other animal species students will benefit from an updated textbook in which a variety of contributors provide their expertise and global perspective in specialized areas

this text offers a unique developmental focus on gender gender development is examined from infancy through adolescence integrating biological socialization and cognitive perspectives the book s current empirical focus is complemented by a lively and readable style that includes anecdotes about children s everyday experiences the book s accessibility is further enhanced with the use of bold face to highlight key terms when first introduced along with a complete glossary of these terms all three of the authors are respected researchers in divergent areas of children s gender role development and each of them teaches a course on the topic the book s primary focus is on gender role behaviors how they develop and the roles biological and experiential factors play in their development the first section of the text introduces the field and outlines its history part 2 focuses on the differences between the sexes including the biology of sex and the latest research on behavioral sex differences including motor and cognitive behaviors and personality and social behaviors contemporary theoretical perspectives on gender development biological social and environmental and cognitive approaches are explored in part 3 along with the research supporting these models the social agents of gender development including children themselves family peers the media and schools are addressed in the final part cutting edge and comprehensive this is the perfect text for those who have been searching for an advanced undergraduate and or graduate book for courses in gender development the psychology of sex roles and or gender and or women or men taught in departments of psychology human development and educational psychology although chapters have been designed to be read sequentially a full author citation is included the first time a reference is used within an individual chapter rather than only the first time it is used in the book making it easy to assign chapters in a variety of orders this referencing system will also appeal to scholars interested in using the book as a resource to review a particular content area

patterns in twentieth century european thought contains interpretive essays in the history of the century s marxism psychoanalysis quantum physics logic language theory philosophy art literature and theology a concluding essay argues that the philosophy and social theory not to mention the physics and theology constitute a twentieth century counter enlightenment that has replaced the cartesian and newtonian based enlightenment of the eighteenth century

the collected works of chögyam trungpa brings together in ten volumes the writings of the first and most influential and inspirational tibetan teachers to present buddhism in the west organized by theme the collection includes full length books as well as articles seminar transcripts poems plays and interviews many of which have never before been available in book form from memoirs of his escape from chinese occupied tibet to insightful discussions of psychology mind and

meditation from original verse and calligraphy to the esoteric lore of tantric buddhism the impressive range of trungpa s vision talents and teachings is showcased in this landmark series volume three captures the distinctive voice that chögyam trungpa developed in north america in the 1970s and reflects the preoccupations among western students of that era it includes cutting through spiritual materialism and the myth of freedom the two books that put chögyam trungpa on the map of the american spiritual scene the heart of the buddha and sixteen articles and forewords complete this volume
