today some six million freemasons around the world continue to perform their rituals regularly an enormous legacy of spiritual endeavour kept largely in secret in britain alone there are over 7 000 lodges with a quarter of a million members what is this wealth this appeal and how did the philosopher and spiritual scientist rudolf steiner reinterpret or reconstruct freemasonry s time worn legacy unless one is a freemason the masonic world with its arcane conventions and language remains largely unknown an obscurity that is almost impossible to fathom yet understanding its traditions and style are invaluable when approaching goethe mozart herder lessing and novalis as well as rudolf steiner steiner himself renewed the royal art of freemasonry from 1906 to 1914 through his ritual work known as mystica Æterna when steiner invigorated

education medicine the social order and religion he fully intended that committed and professional individuals should assume responsibility for the new initiatives but this was not the case with the masonic order he founded whose leadership he took upon himself even the celebration of his passing in 1925 led by marie steiner was entirely masonic in character in the context of continuing resistance and misrepresentation n v p franklin uncovers the living heart of freemasonry and reveals why it was and still is immensely relevant to anthroposophy with profound research into its older rituals and teachings this detailed and conscientious study is a unique contribution to comprehending freemasonry and anthroposophy both historically and in the present day

beneath the vatican the darkest secrets are hidden just when you thought you learned all there was to know in the first two volumes of leo lyon zagami s confessions the revelations are deeper and even more twisted in volume iii zagami pushes the boundaries once again with this unique and personal journey into the mysteries of the secretive world of the illuminati in the third book of his confessions series a variety of topics of interest are explored that are always verified with documentation zagami gives an account of humankind s function within the grand celestial battle between the internal controllers of earth and the external knowledge of a new generation of conspiracy researchers this is not a work of fiction but is instead an indispensable tool when used as a manual to finally understand topics never before disclosed to the public from the truth on the mythical knights templars and their role in events leading up to today to the jesuits and their vatican espionage game to the hunt for the holy grail in the heart of the vatican zagami shocks once again showing to the world for the first time the most credible candidates of the grail mystery with proven testimony of a now declared saint of the catholic church the illuminati exist and they create religions and influence humanity with spiritual ideology and religious practices since the dawn of time they have aided individuals such as aleister crowley and gerald gardner craft the modern witchcraft revival which hides behind a pagan image a satanic reality in tune with todays new age movement zagami also continues what he calls conspiracy reality a way to fight back the system of lies and deceit responsible for the rise of satanism in the vatican showing in the process the magical practices of the illuminati

the western esoteric traditions offers a concise history of a distinct form of philosophical spirituality extending from hermeticism neo platonism and gnosticism in the early christian era up until the present new paradigms in medicine and science attest to the continuity of esoteric ideas into the twenty first century

transhumanism is a recent movement that extols man's right to shape his own evolution by maximizing the use of scientific technologies to enhance human physical and intellectual potential while the name is new the idea has long been a popular theme of science fiction featured in such films as 2001 a space odyssey blade runner the terminator series and more recently the matrix limitless her and transcendence however as its adherents hint at in their own publications transhumanism is an occult project rooted in rosigrucianism and freemasonry and derived from the kabbalah which asserts that humanity is evolving intellectually towards a point in time when man will become god modeled on the medieval legend of the golem and frankenstein they believe man will be able to create life itself in the form of living machines or artificial intelligence spearheaded by the cybernetics group the project resulted in both the development of the modern computer and mk ultra the cia's mind control program mk ultra promoted the mind expanding potential of psychedelic drugs to shape the counterculture of the 1960s based on the notion that the shamans of ancient times used psychoactive substances equated with the apple of the tree of knowledge and as revealed in the movie lucy through the use of smart drugs and what transhumanists call mind uploading man will be able to merge with the internet which is envisioned as the end point of kabbalistic evolution the formation of a collective consciousness or global brain that awaited moment is what ray kurzweil a director of engineering at google refers to as the singularity by accumulating the total of human knowledge and providing access to every aspect of human activity the internet will supposedly achieve omniscience becoming the god of occultism or the masonic all seeing eye of the reverse side of the american dollar bill

far too ignorant of the histories of the rest of the world being aware of only the accomplishments of greece rome and europe westerners have been made to believe that their societies represent the most superior examples of civilization however the western value system stems from a misconception that as in nature human society too is evolving the idea derives from the hidden influence of secret societies who followed the belief in spiritual evolution of the kabbalah which taught that history would attain its fulfillment when man would become god and make his own laws therefore the infamous illuminati gave its name to the enlightenment of the eighteenth century which claimed that human progress must abandon superstition meaning christianity in favor of reason thus the illuminati succeeded in bringing about the french and american revolutions which instituted the separation of church and state and from that point forward the western values of humanism seen to include secularism human rights democracy and capitalism have been celebrated as the culmination of centuries of human intellectual evolution this is the basis of the propaganda which has been used to foster a clash of civilizations where the islamic world is presented as stubbornly adhering to the anachronistic idea of theocracy where once the spread of christianity and civilizing the world were used as pretexts for colonization today a new white man's burden makes use of human rights and democracy to justify imperial aggression however because after centuries of decline the islamic world is incapable of mobilizing a defense the western powers as part of their age old strategy of divide and conquer have fostered the rise of islamic fundamentalism to both serve as agent provocateurs and to malign the image of islam these sects known to scholars as revivalists opposed the traditions of classical islamic scholarship in order to create the opportunity to rewrite the laws of the religion to better serve their sponsors thus were created the wahhabi and salafi sects of islam from which were derived the muslim brotherhood which has been in the service of the west ever since but the story of the development of these islamic sects involves the bizarre doctrines and hidden networks of occult secret societies being based on a rosigrucian myth of egyptian freemasonry which see the muslim radicals as inheritors of an ancient mystery tradition of the middle east which was passed on to the knights

templar during the crusades thus forming the foundation of the legends of the holy grail these beliefs would not only form the cause for the association of western intelligence agencies with islamic fundamentalists but would fundamentally shape much of twentieth century history
