upbuilding or edification is the central theme of soren kierkegaard s

authorship only the truth that builds up is truth for you e02 354 somewhere along the way soren kierkegaard developed a plan to publish some upbuilding discourses to accompany his pseudonymous works these eighteen upbuilding discourses are the focus of the edifying commentaries in this volume

ironically the philosophy of love has long been neglected by philosophers so called lovers of wisdom who would seemingly need to understand how one best becomes a lover in kierkegaard and the philosophy of love michael strawser shows that the philosophy of love lies at the heart of kierkegaard s writings as he argues that the central issue of kierkegaard s authorship can and should be understood more broadly as the task of becoming a lover strawser starts by identifying the questions how should i love the other is self love possible how can i love god and themes love s immediacy intentionality unity and eternity that are central to the philosophy of love and he develops a rich context that includes analyses of the conceptions of love found in plato spinoza and hegel as well as prominent contemporary thinkers strawser provides an original and wide ranging analysis of kierkegaard s writings from the early the concept of irony and edifying discourses to the late the moment while maintaining the prominence of works of love to demonstrate how kierkegaard s writings on love are relevant to the emerging study of the philosophy of love today the most unique perspective of this work however is strawser s argument that kierkegaard s writings on love are most fruitfully understood within the context of a phenomenology of love in interpreting kierkegaard as a phenomenologist of love strawser claims that it is not husserl and heidegger that we should look to for a connection in the first instance but rather max scheler dietrich von hildebrand emmanuel levinas and most importantly jean luc marion who for the most part center their thinking on the phenomenological nature of love based on an analysis of the works of these thinkers together with kierkegaard s writings strawser argues that kierkegaard presents readers with a first phenomenology of love a point of view that serves as a unifying perspective throughout this work while also pointing to areas for future scholarship overall this work brings seemingly divergent perspectives into a unity brought about through a focus on love which is after all a unifying force

an important new monograph exploring the themes central to kierkegaard s thought and will be of interest to those working in both philosophy and theology

soren kierkegaard 1813 1855 is simultaneously one of the most obscure

philosophers of the western world and one of the most influential his writings have influenced atheists and faithful alike yet despite his now pervasive influence there is still widespread disagreement on many of the most important aspects of his thought kierkegaard was deliberately obscure in his philosophical writings forcing his reader to interpret and reflect but at the same time that kierkegaard produced his esoteric pseudonymous philosophical writings he was also producing simpler direct religious writings since his death the connections between these two sets of writings have been debated ignored or denied by commentators here w glenn kirkconnell undertakes a thorough examination of the two halves of kierkegaard s authorship demonstrating their ethical and religious relationship and the unifying themes of the signed and pseudonymous works in particular the book examines kierkegaard s understanding of the fall of the self and its recovery and the implications of his entire corpus for the life of the individual

taking up the work of meister eckhart f w j von schelling and soren kierkegaard political theology of life formulates the task of an unconditional affirmation of life such a political theology consists of constructing a kenotic eschatology which puts into question any political attempt to justify and legitimize any world historical hegemony on a theological foundation the work thereby argues that in today s neoliberal secular world of narcissistic mass consumption in the age of extreme capitalism such an affirmation of life released from the grasp of sovereign power is the highest ethico religious task of our time the work shows that each of these thinkers meister eckhart at the epochal closure of the medieval world and schelling and kierkegaard from the heart of the epochal condition of modernity has exposed open a dimension of infinitude and manifestation that can be truly inspiring for us that is to say in the abandonment of all worldly attributes lies a receptivity to the highest gift of beatitude an opening to the infinitude that sanctifies our worldly existence which is a radical gift arriving from an origin without origin and without foundation a gift that does not have to be anchored in the nomothetic operation of worldly hegemonies illumination book award winner in poetry illuminationawards com 20 2023 medalists

exploring the silence of prayer in post kantian philosophy and traditional spirituality a philosophy of prayer explores prayer within the perspective of post kantian philosophy against a background of traditional sources including augustine the cloud of unknowing and the seventeenth century french school of spirituality the book uses schleiermacher kierkegaard dostoevsky heidegger berdyaev tillich marcel simone weil emmanuel

levinas and jean louis chrétien to provide an interpretation of what is meant by the passivity and self annihilation of the praying self suggesting an apophatics of the personality pattison pays particular attention to the question of language and the implications of the role given to silence in traditional texts arguing that language remains a defining element of the human god relationship and that silence is not to be construed as the negation of language but as the revelation of the depth of language itself the basic structure of prayer is shown to be implicitly eschatological oriented toward a coming kingdom of justice and peace while at the same time expressing a deep desire for ontological homecoming a tension manifest in respectively levinas and heidegger on pattison s reading prayer calls for and develops a particular orientation of the self toward existence corresponding to the virtue of humility long understood as the basic christian virtue this is shown to be in tension with modernity s commitment to strong versions of autonomy however the choice of humility is not presented as the reinstatement of religious heteronomy but as a free choice of the praying self

we are now becoming numbed by the outrageous events taking place within the political arena of our country throughout our nation the division between factions continues to hold firm the issue of how movement toward reconciliation can occur has become ever more pressing nothing short of our democracy is at stake this book looks to the writings of the nineteenth century danish religious philosopher soren kierkegaard as a resource for thinking in fresh ways about how the divine power of creative transformation is at work in the world through divinity s empowering of our practices in relating to others democracy can be resurrected to a new healthy life six important themes from kierkegaard s thought are used to do a comparative examination of donald trump together with his world and kierkegaard and his world the story of this standoff between one of the world s most famous and well publicized figures and one of the world s greatest thinkers constitutes a compelling investigation and presents quite a contrast uncovered in the storytelling process of kierkegaard trumping trump are the sweet 16 sixteen ways in which resurrection can be practiced in people s lives and help to restore our democracy to a fuller and more vibrant version of itself

george pattison provides a reassessment of kierkegaard s eighteen upbuilding discourses and our reading of his work as a whole

rediscovered spiritual writings from the most profound thinker of the 19th century ludwig wittgenstein the kierkegaard known to history is in an

important sense not kierkegaard at all his true point of view is found in his religious writings george pattison from the foreword in this new collection oxford theologian george pattison translates and selects soren kierkegaard s previously neglected writings on spirituality works that greatly deepen our understanding of the influential thinker in philosophy and literature kierkegaard by far the most profound thinker of the nineteenth century ludwig wittgenstein is generally perceived as epitomizing existential angst however there is much more to kierkegaard than the popular image of the melancholy dane or the iconoclastic critic of established christendom alongside the pseudonymous books for which he is largely known kierkegaard also wrote many devotional works which he called upbuilding or edifying discourses taken as a whole these writings offer something very different from the popular view they embody a spirituality grounded in a firm sense of human life as a divine gift here is the great danish master of irony and subversion speaking with an earnestness and plainness that is all the more powerful for being unfamiliar george pattison offers us a deeply valuable introduction to a great philosopher s hidden simplicities rowan williams archbishop of canterbury fascinating and perplexing in equal measure these exegeses on gospel and biblical sayings display a side of the great 19th century philosopher kierkegaard that is considerably less familiar to modern readers than his status as a protoexistentialist kierkegaard s lyricism insight and passionate insistence on the enduring value of scripture are frequently a wonder to behold publishers weekly

soren kierkegaard s 13 communion discourses constitute a distinct genre among the various forms of religious writing composed by kierkegaard originally published at different times and places kierkegaard himself believed that these discourses served as a unifying element in his work and were crucial for understanding his religious thought and philosophy as a whole written in an intensely personal liturgical context the communion discourses prepare the reader for participation in this rite by emphasizing the appropriate posture for forgiveness of sins and confession
