*historical archaeology demonstrates the potential of adopting a flexible encompassing definition of historical archaeology which involves the study of all societies with documentary evidence it encourages research that goes beyond the boundaries between prehistory and history ranging in subject matter from roman britain and classical greece to colonial africa brazil and the united states the contributors present a much broader range of perspectives than is currently the trend*

*in studying the past archaeologists have focused on the material remains of our ancestors prehistorians generally have only artifacts to study and rely on the diverse material record for their understanding of past societies and their behavior those involved in studying historically documented cultures not only have extensive material remains but also contemporary texts images and a range of investigative technologies to enable them to build a broader and more reflexive picture of how past societies communities and individuals operated and behaved increasingly historical archaeology refers not to a particular period place or a method but rather an approach that interrogates the tensions between artifacts and texts irrespective of context in short historical archaeology provides direct evidence for how humans have shaped the world we live in today historical archaeology is a branch of global archaeology that has grown in the last 40 years from its north american base into an increasingly global community of archaeologists each studying their area of the world in a historical context where historical archaeology started as part of the study of the post columbian societies of the united states and canada it has now expanded to interface with the post medieval archaeologies of europe and the diverse post imperial experiences of africa latin america and australasia the 36 essays in the international handbook of historical archaeology have been specially commissioned from the leading researchers in their fields creating a wide ranging digest of the increasingly global field of historical archaeology the volume is divided into two sections the first reviewing the key themes issues and approaches of historical archaeology today and the second containing a series of case studies charting the development and current state of historical archaeological practice around the world this key reference work captures the energy and diversity of this global discipline today*

*the routledge handbook of global historical archaeology is a multi authored compendium of articles on specific topics of interest to today s historical archaeologists offering perspectives on the current state of research and collectively outlining future directions for the field the broad range of topics covered in this volume allows for specificity within individual chapters while building to a cumulative overview of the field of historical archaeology as it stands and where it could go next archaeological research is discussed in the context of current sociological concerns different approaches and techniques are assessed and potential advances are posited this is a comprehensive treatment of the sub discipline engaging key contemporary debates and providing a series of specially commissioned geographical overviews to complement the more theoretical explorations this book is designed to offer a starting point for students who may wish to pursue particular topics in more depth as well as for non archaeologists*

*who have an interest in historical archaeology archaeologists historians preservationists and all scholars interested in the role historical archaeology plays in illuminating daily life during the past five centuries will find this volume engaging and enlightening*

*described by lewis binford in his new foreword as a solid foundation on which to build a vital and growing historical archaeology stanley south s famous book on historical archaeology includes a new introduction by the author that discusses how the book came to be written and the evolution of the field widely regarded as one of the most influential books in historical archaeology the book was originally published by academic press in 1977*

*interpretations of the past are under constant critical scrutiny in archaeology in recent decades theoretical views have profoundly changed the conceptions of both the past and archaeologists relationship to this object of study however our basic excavation and analytical methods have undergone little critical re evaluation often archaeological discussions begin as if data were already established independent of the research designs and analytical choices that produce them interpretation often ends at the lectern but it has many beginnings within the traditional archaeological process exploring how data is generated and interpreted by historical archaeologists it is at the intersection of dirt and discussion the cases presented in this volume revisit old methods and previous scholarly approaches with new perspectives along with incorporating the newest technologies available to understanding the past rethinking the classics and engaging with new modes of data creation also generate fresh theoretical approaches using their own work as examples the contributors explore the connections between methodology and interpretation between dirt and discussion advocates recentering the materials that make archaeology archaeology in the hopes of reinvigorating dialogues about the historic past and archaeological contributions to its understanding*

*in this unique volume twelve pioneers of historical archaeology offer reminiscences of the early part of their respective careers circa 1920 to 1940 each scholar had to overcome numerous biases held by historians and archaeologists thus each chapter documents a step in the field s march from a marginal to a mainstream discipline the book makes for facinating reading for archaeologists anthropologists and historians of science and reminds us of the words of c h fairbanks what is past is prelude study the past*

*this text explains how historical archaeologists use historical texts maps oral testimonies and other materials in conjunction with excavated artifacts old buildings and relict landscapes to decipher the recent past further it discusses how archaeological detectives find sites excavate them analyze and classify the artifacts and how they develop explanations from all the information they have collected addrssing some of today s most important issues from a historical archaeological perspective the text explores topics such as the identification and symbolization of ethnicity the development and maintenance of class differences changes in gender roles and the recognition of women in history and the material manifestations of race these issues are supported by an abundance of global examples from sites where archaeologists have tackled these complex issues*

*for courses in historical archaeology significantly revised and expanded the second edition of this popular text provides a short readable introduction to historical archaeology the overall approach is descriptive and explanatory it describes fundamental principles the history of the field and basic definitions archaeological methods and discusses topics such as time and space historical artifacts survey and excavation and then presents basic archaeological theories and research this comprehensive book also includes a look at career prospects in the field for interested students*

*a historical survey of archaeology historical anthropology 3 e provides a short readable introduction to the history of archaeology with a descriptive and explanatory approach this title describes fundamental principles archaeological methods the history of the field and basic definitions topics such as time and space historical artifacts survey and excavation are presented to better help students understand the historical timeline basic archaeological theories and research are also examined this comprehensive title also includes a look at career prospects in the field for interested students mysearchlab is a part of the orser program research and writing tools including access to academic journals help students explore historical anthropology in even greater depth to provide students with flexibility students can download the etext to a tablet using the free pearson etext app note mysearchlab does not come automatically packaged with this text to purchase the text with mysearchlab order the package isbn 0133827925 9780133827927 historical archaeology plus mysearchlab with etext access card package package consists of 0205239927 9780205239924 mysearchlab with pearson etext valuepack access card 0205972136 9780205972135 historical archaeology alert before you purchase check with your instructor or review your course syllabus to ensure that you select the correct isbn several versions of pearson s mylab mastering products exist for each title including customized versions for individual schools and registrations are not transferable in addition you may need a courseid provided by your instructor to register for and use pearson s mylab mastering products packages access codes for pearson s mylab mastering products may not be included when purchasing or renting from companies other than pearson check with the seller before completing your purchase used or rental books if you rent or purchase a used book with an access code the access code may have been redeemed previously and you may have to*
