the early political careers of manuel l quezon and sergio osmena are brought to light in the context of a changing colonial society cullinane shows how provincial politicos rose to national leadership in the midst of influential american officials and manila based ilustrados as they took advantage of the possibilities presented by the new colonial order

silent film was universally understood and could be exported anywhere but when talkies arrived the industry began experimenting with dubbing subtitling and dual track productions in more than one language where language fractured the european film market for spanish speaking countries and communities it created new opportunities in the rise of spanish language filmmaking lisa jarvinen focuses specifically on how hollywood lost ground in the lucrative international spanish speaking audience between 1929 and 1939 hollywood studios initially trained cadres of spanish speaking film professionals created networks among them and demonstrated the viability of a broadly conceived transnational spanish speaking film market in an attempt to forestall the competition from other

national film industries by the late 1930s these efforts led to unintended consequences and helped to foster the growth of remarkably robust film industries in Mexico, Spain, and Argentina. Using studio records, Jarvinen examines the lasting effects of the transition to sound on both Hollywood practices and cultural politics in the Spanish-speaking world. She shows through case studies based on archival research in the United States, Spain, and Mexico how language as a key marker of cultural identity led to new expectations from audiences and new possibilities for film producers.

This book examines how non-fictional travel accounts were rewritten, reshaped, and reoriented in translation between 1750 and 1850, a period that saw a sudden surge in the genre's popularity. It explores how these translations played a vital role in the transmission and circulation of knowledge about foreign peoples' lands and customs in the Enlightenment and Romantic periods. The collection makes an important contribution to travel writing studies by looking beyond metaphors of mobility and cultural transfer to focus specifically on what happens to travelogues in translation. Chapters range from discussing essential differences between the original and translated text to relations between authors and translators from intra-European narratives of grand tour travel to scientific voyages round the world and from established male travellers and translators to their historically less visible female counterparts drawing on European travel writing in English, French, German, Spanish, and Portuguese. The book charts how travelogues were selected for translation, how they were reworked to acquire new aesthetic, political, or gendered identities, and how they sometimes acquired a radically different character and content to meet the needs and expectations of an emergent international readership. The contributors address aesthetic, political, and gendered aspects of travel writing in translation, drawing productively on other disciplines and research areas that

encompass aesthetics the history of science literary geography and the history of the book
